

In the middle of the busy San Francisco Peninsula is a haven—a European-styled village in Palo Alto called The Hamlet. A community of homes and shops apart from the rest of the world, yet near all the best the area has to offer.

The Hamlet is 54 spaciously designed condominiums, complemented by retail shops and office space. A place to relax in the intimacy of your personal residence, and enjoy the convenience of shopping, working or al fresco dining on the premises.

The design of The Hamlet is distinctly European, highlighted by gabled roofs, dormer windows, trellised balconies and vine-covered arbors. Extensive landscaping, central courtyards and a cascading fountain are also featured.

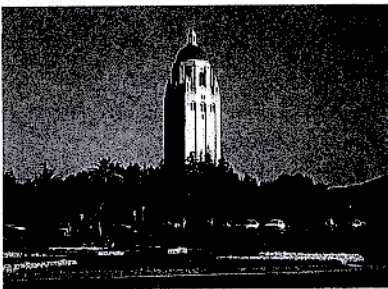

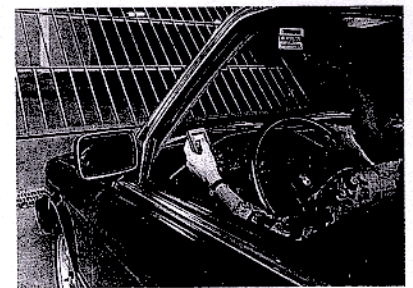

Aesthetics aside, The Hamlet has been constructed in a sturdy and substantial style rarely seen in homes this affordable, with extensive use of thick beam timbering anchored in a pad of concrete and steel. Your home at The Hamlet is built to last.

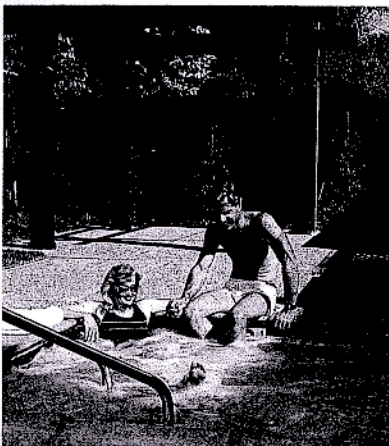

High-tech electronics for convenience and security

You'll find life at The Hamlet a snap, using your remote control to access the secured underground parking or identifying visitors via a closed-circuit television. Perimeter fencing on the Plaza Level keeps visitors to shops and offices away from the residential areas.

A variety of opportunities

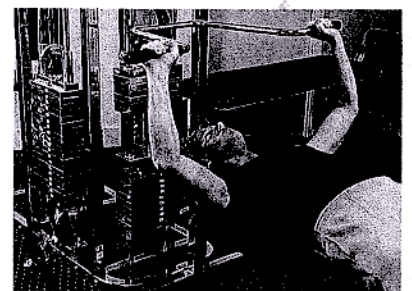

With a choice of seven different floorplans ranging in size up to 1,404 square feet, The Hamlet offers an extensive menu of options to meet your individual needs. One, two and three bedroom plans are available in one or two stories, with an extensive list of included features.

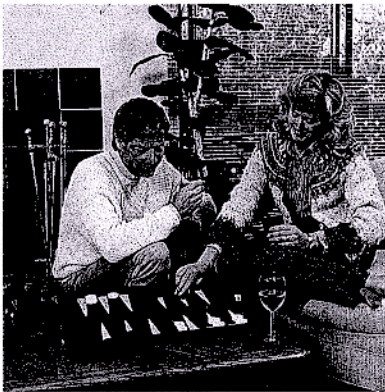

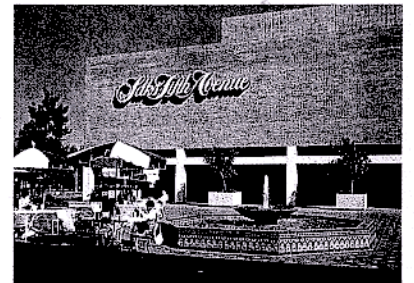

The Hamlet offers abundant recreational resources right on the premises, with a heated spa in the backyard, sauna and steam room downstairs, and fully equipped exercise facilities, including gym, locker rooms and showers.

Running or walking through the neighborhood, you'll find nine local parks within a mile radius, and of course the Stanford University campus is less than two miles up the road.

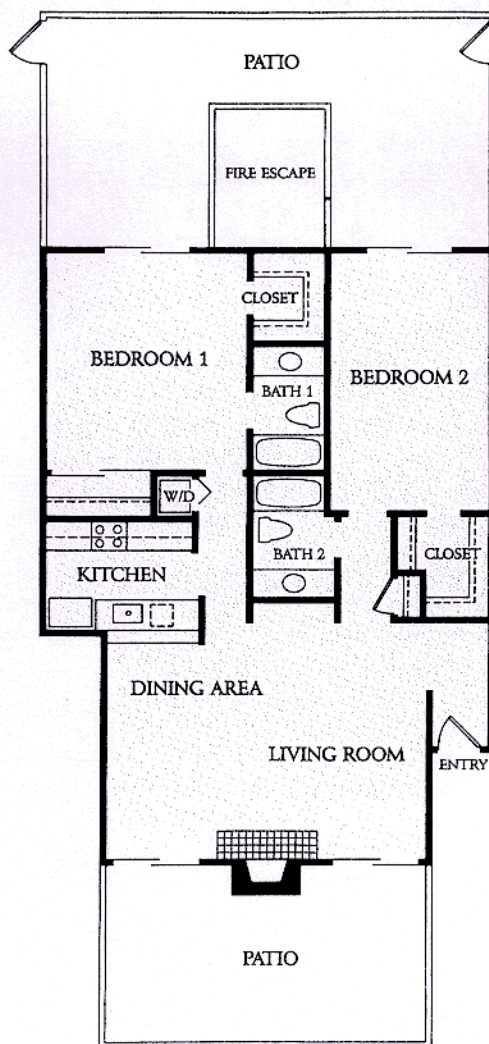

With Rickey's Hyatt and Hyatt Palo Alto within walking distance, as well as fine restaurants and the San Antonio and Stanford shopping centers, residents at The Hamlet will rate the quality of life very high. It's a touch of Europe brought home to beautiful Palo Alto, a special place to live, shop and enjoy.

Plan A

2 Bedroom, 2 Baths
1,323 Sq. Ft. (approx.)
