(ENGLISH)

We are concerned about the situation of a group of some 1204 Iranian Kurdish refugees who fled to Turkey between 2001 and 2003 having previously claimed asylum in northern Iraq, and who have been waiting for a durable solution for some years in Turkey.

There are 470 political cases, about 1204 people;men,women and children calls Iranian ex-Northern Iraqi refugees. These people are in turkey waiting for the UNHCR to send them to safer country that will accept them as quota refugees.

This group arrived in Turkey from Northern Iraq about 4 or 5 years ago and were granted the status of refugees by the UNHCR at the end of 2003 and the start of 2004.in spite of this none of them were flown out of Iraq to settle in countries that would accept them as quota refugees. 170 people of them who arrived in Turkey in 2001 were granted the status of temporary residency by the Turkish government. But this government change their status and were

granted “ the status of foreigner” to all of that group in 30/03/2004 .and their temporary stay tie to the permission of residence in Turkey.

* According to international convention this group should send to third country,give them hygienic possibility,financial aids,and social protection. but they are in waiting for 4-5 years with out any formal answer.

***we do ask Turkey:**

to deal with the group 1204 cases as temporary refugee according to 1994 protocol,and 1951 GENEVA convention..

*give them legal permission to travel for asylum country.

we do ask UNHCR :

put in practice your promise about these political refugees and give them their legal rights as: financial aids, hygienic possibility..

*settle them to third country as soon as
