Panchanga in America!

America has a panchanga by name "Old farmer's Almanac" being published from 1792. This also contains information tables for the 12 months. The tables give Date, Week day, Times of Sunrise, Sunset, Moonrise & Moonset, Date's count from the last Full moon day, Sea tide details, Day's specialities etc. The book also has a hole on the left top corner for being hung on a wall. Whichever is the country, panchanga has to be in hands' reach.

Thilatharpanam, Katakaayana 28-28**Rakshasi Power and Sooryarghya**

Rakshasas do not like sunrise - with sunlight, their evil operations cannot be carried on. They do not like Soorya reaching the meridian (right on top of head - noon time) as the severity of the sun affects their operations. However they welcome sunset as they can carry on their operations without any hindrance. In summary, Rakshasas are afraid of Sun.

The three times are known as junction times (Sandhi kaalas). Junction of Night and day is called Prathyusha, junction of Ante meridian and Post Meridian is known as Abhijith, junction of day and night is known as Pradosha.

Rakshasas have three types of power - weapon power, vehicle power and self power. These three powers in them increase during the sandhya kaalas in order to stop/postpone sunrise, sun reaching meridian, and hasten sunset.

During these sandhya kaalas, the influence of rakshasi power within the humans increase. In order to neutralize/eliminate the influence of the rakshasi power, during sandhyavandane Sooryarghya is given thrice.

It is also used as a routine to pick up all details required for daily sankalpa. Ideally one should have a glance of the narrations of the ensuing month atleast about a week before the beginning of the month. This would be of great help in knowing in advance about the forthcoming vrats. Further, each day one should make it a routine to look at the Panchangam for the details - thithi, vara, nakshatra, yoga, karana and the vrata narrations - of the current day and the next day. This will help in not missing a vrata by ignorance / forgetfulness. Veda contains 20,125 Manthras, 18 Puranas, 8 Upanishats

First word suvarna means 1 maasha = 5 gulaganji, 16 maashas = 1 suvarna, 1 suvarna = 80 gulaganjis (8 grams). Second word suvarna means pure gold. This kind of golden ring weighing 8 grams is suitable for wearing on all occasions and gives pavithra (purity) to the hand. This ring has to be worn on Ring finger (Anamika [Nameless] finger). Thus for a pavithra ring, gold and weight are important.

Muhurtha Raja: Nakshatra Weekday combination's phala is useful as a simple Muhurtha tool as indicated by the name Muhurtha Raja. It is popularly used for Travel & such simple occasions. This phala is indicated as (+) Plus & (-) Minus in front of the Nakshatra of the day in this Panchangam. This phala is referred as Amrutha, Siddhi, ... by other publications. **Wherever, both + and - are given, the first sign is upto end of Nakshatra and the second sign is for the rest of the day. Only one sign is for the entire day.**

Time reported in Panchanga: Ending times of Thithi, Nakshatra, Yoga and Karana are reported in the Panchanga in Hours (IST). A day in the panchanga is reckoned from one sunrise to the next sunrise (roughly 6 am to next 6 am). This is reported as 6-00 hours to 30-00 hours. (Time after midnight upto the Sunrise, which is considered a part of the previous day in the panchanga is reported as times ranging from 24-00 to about 30-00 hours, e.g. 2-34 am is written as 26-34).

Current Day

For counting Impurity (Ashoucha) period due to Birth and Death the extent of Current day (on the Day of occurrence) is required. First 5/8 parts of the Rathrimana (night time - sunset to sunrise) is counted as part of the Current day and the rest as Next day. For a notional Sunrise of 6 am and Sunset of 6 pm, upto 1-30 am is considered as Current Day. This also means, the current day is from previous 1-30 am.

However for Rajaswala (Menses) nirnaya, first 2/3 of the night time is considered as part of current day, in which case 2-00 am would be the cutoff point.

Shraddha is also worship of the God

One shraddha is equal to worshipping 96 forms of Vishnu (Shannavathi Roopas of Bhagavantha) as the deity in a shraddha is called Shannavathi Narayana / Shraddhadeva. This is the Janardhana roopi Bhagavantha. Shraddha is not inferior in worship of God to any other vrata - be it Anantha vrata, Krishnashtami, Vralakshmi etc.

During a shraddha, Pithru devathas and Vishwe devathas are invited. Pithru devathas deliver food to the Pithrus (similar to Postal Money order system). Vishwe devathas protect the shraddha.

In order to satisfy the pithrus, seven activities are integrated into a shraddha. They are: homa, pindapradaana, uchchishtapinda, vikira, brahmana bhojana, bhoori bhojana and dakshina.

*Agnoukarane devasthaaha swargasthe viprabhojane
pindadaanena yamasthaaha /*

*Narake vikeeryenathu uchchishite pishaachaaha asuraaha
booribhojane dakshinadaanena manushyaaha //*

Pithrus will be satisfied by different activities depending on their current status. If they are 1. Devathas by homa (rugvedis do panihoma -

palm has agni), 2. in swarga by brahmana bhojana, 3. in yamaloka by pindapradaana, 4. in naraka by vikira (keeping anna in front of a leaf), 5. pishaachis by uchchishita pinda, 6. rakshasas by bhoori bhojana and 7. humans by dakshina.

*Thilamannam cha paaneeyam dadhi ksheeram gudam thathaa /
madhusarpinasamaayuktham ashtaangam pindalakshanam //*
..... smruthimukthaavali

During a shraddha pithru deha is prepared in the form of pinda (rice ball) using eight items. Each of them forms different parts of the body:

1. Ellu and Rice - Head, 3. Curds - Nose, 4. Ghee - Ears, 5. Jaggery - Hands, 6. Honey - Hairs, 7. Milk - Heart and 8. Water - Legs.

Ellu, Uddu and Dharbhe are born out of the sweat of Bhagavantha. Hence they are very important items for functions of peace.

Ladies wear and bless, Pithrus eat and bless

goes the saying. This means Ladies should be gifted (by way of daana - give away) dresses (traditionally Saree with Blouse), beauty aids to wear and enjoy to their heart's content. Men on the other hand have to be served with excellent food for them to enjoy. Naturally they will bless the giver.

Deshabedha (Locational Difference) Ekaadashi

August 2009, 16th is **Sarvathra Ekaadashi** in Kerala, most parts of Tamilnadu, Karnataka, Maharashtra, Gujarat, Rajasthan.

However in Northern India, Eastern India, Andhra Pradesh, Parts of Tamil Nadu - Vellore, Kanchipuram and Chennai areas **Smartha Ekaadashi** and **August 17th** is **Bhagavatha Vaishnava Ekaadashi**.

September 2009, 29th is **Sarvathra Ekaadashi** at Bhoj, Rajkot, Dwaraka and Jamnagar.

At other places **Smartha Ekaadashi** and **September 30th** is **Bhagavatha Vaishnava Ekaadashi**.

Two Upavasas

September 2009, 29th - Sarvathra Ekaadashi, 30th - Athiriktha Ekaadashi at Bhoj, Rajkot, Dwaraka and Jamnagar only.

March 2010, 11th - Sarvathra Ekaadashi, 12th - Shravana Dwadashi

Ekaadashi Basis

*Bhagavatha/Vaishnava Ekaadashi observance is decided based on the rule that **Dashami should have ended before Arunodaya** (96 minutes period preceding Sunrise). As the **Sunrise occurs at different times of the same day at different places**, maximum of three ekaadashis in a year (sometimes none) will have to be observed on a **Ekaadashi on different days in different places** basis.*

This is due to geographical/natural reasons only and Mutts' calculations/practices are not the cause.

However, this Deshabedha is practiced in Uttaradi Mutt only. In other mutts, the later day of the two different days is observed as Ekaadashi at all places. - Those who observe Ekaadashi may ascertain the dates in their Mutt.

**Few Udupi mutts are using Drigganitha Panchangam for day to day use. Sometimes their Ekaadashi could be on a different day.*

Smartha Ekaadashi is based on Ekaadashi thithi at the time of sunrise.

Drushyamaane ravousnaayaath muchyamaane nishaakare

During a Soorya grahana Madhyakala is not necessarily the mid point. Hence the acharanes are observed at the start (sparsha). However, during Chandra grahana, Madhyakala is the midpoint. Hence the acharane is from the madhyakala.

After a grahana, sanyasis have theertha thrice and angara akshathe, but no food.

Shraddha Thithis indicated are as per calculations to suit customs of everybody.
* General rule for madhwais is **Perform Ekadashi/Dwadashi shraddha on Dwadashi observance day.** Shraddha Thithis on Athirikttha Ekadashi and Shravana Dwadashi days have to be performed on the Parane (next) day.
Sometimes Ekadashi shraddha thithi occurs on a Viddha / Dashami day, Dwadashi shraddha thithi on Ekadashi observance day. In both the cases, performing Shraddha on the Dwadashi parane day is the general rule.
One school of thought is that Ekadashi shraddha can be performed on such Dashami day. Some mutts do not agree with this contention. Concerned persons may ascertain the date from their mutts / purohit.

Ganga sannidhana in river Bheemarathi:

Planet Guru moves into Kumbha Rashi on 19th December 2009. With this movement, sannidhana of river Ganga moves from river Tungabhadra into river Bheemarathi.

Vaishwadeva

While growing grains, fruits and vegetables and treating them (for making them fit for eating - including cooking), cruelty to living beings is committed with and without our knowledge. In order to perform repentance, Vaishwadeva has to be performed.

Food (lunch) without vaishwadeva should not be taken. However, if it is not possible to do vaishwadeva or you are not sure if vaishwadeva has been performed, at the start of lunch:

Hutha devathaabhyo namaha
Ahutha devathaabhyo namaha
 has to be chanted simultaneously sprinkling theertha or water on the anna (rice), do namaskara to anna and pray to do the equivalence of vaishwadeva. Shathaathapa rushi

Graha peeda is for whom?

Deva brahmana vandanath /
gurvacha sampaadanaath
prathyaham saadhoonaamapi darshanaath /
homaath adhwaryu darshanaath /
na kurvathi peedananaam || ... Varahamihira
Persons who prostrate to God, Shreshta brahmanas, have the blessings of Guru, had the darshana of Sanyasis, Sadhoos, Homas and persons performing homas need not fear about Graha Peeda.

Namaskaara

Agre prushte vaamabhaage sameepe garbhamaandire / japahoma namaskaaraan na kuryaath keshavaalaye / agre mruthyum avaapnothi / vaamabhaage bhavennaashaha / prushthethu apajayaha syaath / dakshine sarvakaamadaha ||
Namaskaaras (prostration), Japas and homas should not be performed behind God's sanctum sanctorum, on the left side, close by, inside the sanctum. Namaskaara done right in the front is an invitation to death, on left side is way to destruction, behind leads to non victory.
Namaskaara done on the right side leads to fulfillment of all desires. Therefore, irrespective of the direction of the God, Namaskaaras have to be done from the right side facing God.

Muhurthas: Uttharayana is considered the best for almost all events. Dakshinayana is not recommended for events like Upanayana, Aksharabhyasa etc.

Panchangas are expected to list vivaha muhurthas of just five months beginning from Magha (maghadi pancha maseshu).

It is customary to show Arundhati nakshatra to the newly married couple as a part of the vivaha in order to get the blessings of the ideal Vasishta-Arundhati couple. Incidentally, Arundhati nakshatra is visible only during these five months.

Muhurthas of Vivaha and Upanayana are indicated in the panchangam along with the vratas as "Vivaha Vrushabha, Upanayana Kumbha Vrushabha" etc. This example indicates Vrushabha lagna is suitable for Vivaha on that day. Lagnas Kumbha and Vrushabha are both suitable for Upanayana on the same day. Astha of Guru is not suitable for Rugvedis, Shukra for Yajurvedis & Bhouma for Samavedis.

These muhurthas are very general in nature. Astrologers should be consulted to check the suitability of these muhurthas for any individual and/or locating a better muhurtha (not necessarily reported in the panchangam.)

Dashami, Ekadashi and Dwadashi are Hari-dinas and madhwas do not fix as muhurthas.
