

IST-43

PANTONG

Insulation Tester

SPECIFICATIONS

Rated Voltage/Resistance	1000V/2000 M Ohm
Central Scale	40 M Ohm
Measuring Range Accuracy	+/- 5% of scale length
AC Voltage	600 V
AC Voltage Accuracy	+/- 3%
Maximum batt. Current	Approx 150 mA
Internal Batt. Check	available
Power Source	Battery 1.5V (UM-3) 4 pcs
Dimension	150 x 99 x 45 mm
Weight	330 g
Standard Accessories	1) Leather Carrying Case 2) Test Lead 3) Manual

Analog Insulation Tester / IST-43 is a very small and light weight field portable Insulation and AC measuring instrument for technician in using their proper applications such as Cable Insulation Resistance in Electrical and Telecommunication, etc. The Tester is completed with Continuous / Push-on Insulation Measuring, and Internal Battery Check for remaining batt. Energy checking purpose
