PASS Local 211 website announcement

Dear Pass Union Brothers;

I am proud to announce that South Florida PASS Local, Chapter 211 now has an official website.

After talking about it for a long time, and never getting around to it, I decided to just sit down and go ahead and design and program our new site. I basically tried to compile as much useful information and links as I could to make our website a one stop place to go to get what we need. There's a news section to post links and downloadable articles with PASS and union related stories. There's also a download section that has links to often used forms and material that is useful not only to members and bargaining unit employees, but also material that will be helpful for the Reps. Besides this there is of course the mandatory links section that has a compilation of other PASS Chapter, PASS National, and Region sites, as well as many other possibly useful sites to visit and explore.

For now, I guess I'll be maintaining and updating the site, so if anyone has any suggestions or would like to assist me, please feel free to let me know.

The website address is: <http://www.geocities.com/pass211sfla/> (sfla stands for South Florida, in case you were wondering, since pass211 was not available.)

I also set up a redirect on the account that Artrip had setup through yahoo awhile back, so if you go to <http://www.geocities.com/passch211/> it will automatically send you over to the new and correct address.

Fraternally,

Juan Reyes
