To whom it may concern

ABB (Asea Brown Boveri) has been co-operating with Company “Electroizolit” for about 10 years. In 1995 ABB and Electroizolit set up a Joint venture “ABB Electroizolit Bushing” for manufacturing high voltage bushings for transformers and dead tank breakers. In manufacturing ABB Electroizolit Bushing uses technologies of the well-known European companies such as Swedish “ABB Components AB” and Swiss “Micafil AG”.

Company “Electroizolit” is a leading producer of insulation materials in Russia and Europe, and one of the main suppliers of components for the joint venture. Insulation materials may be used in electrical machines, generators, transformers and breakers at the temperature range from 120 to 180 C. In 1999 “Electroizolit” was granted the international certificate of ISO 9001:1994 and in 2002 – the certificate of ISO 9001:2000.

In 2002 “Electroizolit” and ABB as partners have chosen PENETRATE BUSINESS SOLUTIONS INC. (reg. No 002016050, Canada) to represent and promote “Electroizolit” products abroad. PENETRATE BUSINESS SOLUTIONS INC. has got very professional personnel with deep understanding of the modern market trends.

We recommend PENETRATE BUSINESS SOLUTIONS INC. as a reliable partner for business.
