THE TRUTH ABOUT WAL-MART:

Wal-Mart wastes American tax dollars. One half of Wal-Mart's 720,000 U.S. employees qualify for federal assistance under the food stamp program.

Wal-Mart's healthcare plan is Medicaid. Only 40% of Wal-Mart workers can afford the healthcare plan that Wal-Mart offers. Unless the employee has a spouse with medical benefits, Wal-Mart's managers suggest applying for Medicaid – your tax dollars at work.

Wal-Mart fights employee injury claims. Wal-Mart lawyers fight workman's compensation claims in court rather than pay justified medical expenses.
