

AFTERWORD

I hope you have enjoyed learning about the Laws of Teamwork. More importantly, I hope they will help you develop the team of your dreams. Embrace them and you will empower your team. That is my promise for you!

John C. Maxwell

After all the many series of Laws of Teamwork, how do you feel? Are you ready to embrace these laws and make it the culture for PELTAC? It is my vision to see that PELTAC can achieve its full potential and become the top no.1 organization in UTM. Achieving such dreams cannot rely on one person alone, but it really needs the power of teamwork to get everyone on the team to be at his best and performing up to his potential. Most importantly for me is to see that people's life changed through joining Peltac for almost a year. It would be an achievement to see Peltacers doing excellently in serving the nation; some becoming ministers, corporate managers, leaders of NGOs etc. However to bring such change, each one of us needs to be willing to pay the price. Investment will always be needed before reaping the dividends. So, place your focus right and work towards the wellness of the entire team. AND you will surely see yourself changed!
