

# Proceedings

## 5<sup>th</sup> Conference on Nuclear and Particle Physics

19-23 Nov. 2005, Cairo, Egypt

### NUPPAC' 05

#### TABLE OF CONTENTS

##### Plenary, Invited, Keynote Talks

<b>1. V.K. Lukyanov</b> (Joint Institute for Nuclear Research, 141980 Dubna, Russia) Microscopic model of high-energy nucleus-nucleus scattering and the respective optical potential .....	<b>1</b>
<b>2. Aleksander Polanski and Bronislaw Slowinski</b> (Institute of Atomic Energy, Poland) Study of characteristics of an experimental subcritical nuclear fuel assembly driven by the 660 MeV phasotron .....	<b>19</b>
<b>3. S. Mukhammedov</b> and A. Khaydarov (Institute for Nuclear Physics of UzRAS, pgt Ulugbek, Tashkent, Uzbekistan 702132) Activation analysis based on secondary nuclear reactions .....	<b>29</b>
<b>4. A.A. Andrianov and V.A. Andrianov</b> (V.A. Fock Department of Theoretical Physics, St.Peterburg State University, 198504 St.Peterbourg, Russia) Quasilocal quark models as effective theory of non-perturbative QCD .....	<b>37</b>
<b>5. K.A. Gridnev, S.Yu. Torilov, V.G. Kartavenko, and W. Greiner</b> (Saint-Petersburg University, Uljanovskaia 1, 198504 St. Peterbourg, Russia) The threshold states in the frame of the model of binding alpha particles .....	<b>45</b>
<b>6. E.A. Eissa</b> , (Reactor & Neutron Physics Department, Atomic Energy Authority, 13759 Cairo-Egypt) An Egyptian move towards $k_0$ standardization in NAA .....	<b>51</b>
<b>7. M.A. Adawi</b> , (Atomic Energy Authority, Nuclear Research Center, 13759 Cairo-Egypt) Radiation induced changes of optical electrical and mechanical properties of glasses, dielectrics, and semiconductors .....	<b>67</b>
<b>8. M.I. Wanas</b> , (Astronomy Department, Faculty of Science, Cairo University, Giza, Egypt) Quantum roots in geometry: II .....	<b>81</b>

<b>9. Louis Bimbot</b> (for the G0 Collaboration) (Institut de Physique Nucleaire, BP no 1, F-91406 Orsay Cedex, France) First results from the G0 parity violation experiment carried out at Jefferson laboratory .....	<b>93</b>
---	-----------

### High Energy Physics

<b>10. L. Chkhaidze, T. Djobava, V. Garsevanishvili, L. Kharkhelauri, and Yu. Tevzadze</b> (Mathematical Institute of the Georgian Academy of Sciences, M. Alexidze St. 1380093 Tbilisi, Georgia) Light front variables in high energy inclusive reactions .....	<b>107</b>
---	------------

<b>11. Pierre Depommier (for the KEK–PS collaboration)</b> , (University of Montreal, Montreal, Canada) Search for time-reversal violation in kaon decays .....	<b>121</b>
--	------------

<b>12. S. Rekab</b> and N. Zenine (Division de Physique Nucleaire, Centre de Recherche Nucleaire d'Alger– COMENA, 02 Bd Frantz Fanon – Algiers –Algeria) Optimized non-relativistic potential for quarkonia .....	<b>129</b>
--	------------

<b>13. S. Rekab</b> and N. Zenine (Division de Physique Nucleaire, Centre de Recherche Nucleaire d'Alger – COMENA, 02 Bd Frantz Fanon – Algiers – Algeria) Approximate analytic eigenvalues for orbital excitations in the case of a coulomb potential plus linear and quadratic radial terms .....	<b>135</b>
--	------------

### Nuclear Scattering and Reactions

<b>14. K.M. Hanna, I.N. Kuktina, K.V. Lukyanov, V.K. Lukyanov, B. Slowinski, and E.V. Zemlyanaya</b> (Mathematics & Theoretical Physics Dept., Atomic Energy Authority, P.O. 13759 Cairo – Egypt) Calculations of nucleus-nucleus microscopic optical potentials at intermediate energies .....	<b>141</b>
--	------------

<b>15. K.M. Hanna, K.V. Lukyanov, V.K. Lukyanov, Z. Metawei, B. Slowinski, and E.V. Zemlyanaya</b> (Joint Institute for Nuclear Research, Dubna, Russia) Excitation of nuclear collective states by heavy ions within the model of semi-microscopic optical potential .....	<b>153</b>
--	------------

<b>16. S. Mukhammedov, A. Khaydarov, and E.G. Barsukova</b> (Institute for Nuclear physics of UzRAS, pgt Ulugbek, Tashkent, Uzbekistan 702132) Nuclear reactions excited by recoil protons on a nuclear reactor .....	<b>163</b>
--	------------

<b>17. E.H. Esmael</b> and M.A. Allam (Physics Department, Faculty of Science, Cairo University, Cairo, Egypt) Single folding analysis of the elastic scattering of p- <sup>16</sup> O .....	<b>171</b>
---	------------

<b>18. A.SH. Ghazal and E.H. Esmael</b> (Physics Department, Faculty of Science, Cairo University, Cairo, Egypt) Analysis of the new measurement of elastic scattering of $^{16}\text{O}+^{12}\text{C}$ using density dependent interaction .....	<b>179</b>
<b>19. F. Mekideche</b> and F. Kadem (Laboratoire de Physique Theorique, Faculte de Physique, USTHB, BP32, El-Alia, Bab Ezzouar, Alger, Algeria) Faddeev equations and the time independent mean field theory .....	<b>189</b>
<b>20. I. Kadenko, R. Yermolenko, O. Gritzay,</b> and V. Libman (Institute for Nuclear Research of NASU, Kyiv, Ukraine) Determination of cross-sections for the reaction $^{181}\text{Ta}(n,\bullet)^{182\text{m}2}\text{Ta}$ at neutron filtered beams .....	<b>199</b>
<b>21. N. Amrani</b> and A. Boucenna (Laboratory for Dosage and Analysis of Characteristics in High Resolution, Physics Department, Faculty of Sciences, UFAS University, Algeria) The neutron capture cross-section for $^{99}\text{Tc}$ with Feshbach and Weisskopf model ...	<b>207</b>
<b>22. M.B. Challan,</b> M.A. Abou-Zeid, and M.N.H. Comsan (Experimental Nuclear Physics Dept., Nuclear Reaseach Center, AEA, Postal Code 13759, Cairo, Egypt) Measurement and analysis of cross-sections for (p,x) reactions on natural Molybdenum .....	<b>211</b>
<b>23. Hamid Reza Moshfegh</b> (Department of Physics, University of Tehran, P.O. Box 14395-547, Tehran 1439955961, Iran) Asymmetric nuclear matter: A variational approach with Reid93 interaction ....	<b>225</b>
<b>Relativistic and Quantum Physics</b>	
<b>24. Sedigheh Deldar</b> and Shahnoosh Rafibakhsh (Department of Physics, University of Tehran, P.O. Box 14395/547 Tehran 1439955961, Iran) SU(4) color charges potentials .....	<b>233</b>
<b>25. H. Sadeghi</b> and S. Bayegan (Department of Physics, University of Arak, P.O. Box 38156-879, Arak, Iran) From fundamental theory (QCD) to nuclear physics .....	<b>239</b>
<b>Neutron and Reactor Physics</b>	
<b>26. A.L. Ismail</b> and H.H. El-Khatib (Reactors Department, NRC, Atomic Energy Authority, Cairo, Egypt) Thermal investigation of ETRR-2 research reactor with different induced draft wet cooling tower .....	<b>251</b>

<b>27. V.G. Grinev</b> , O.I. Kudinova, S.P. Kuznetsov, L.A. Novokshonova, A.V. Shelagin, and A.I. Udovenko (Lebedev Physical Institute, Russian Academy of Sciences, Leninskii Pr.,53, Moscow, 119991 Russia) Neutron-optical effects at very cold neutrons scattering on the spherical particles of different sizes .....	<b>261</b>
<b>28. O. Gritzay</b> , O. Kalchenko, N. Klimova, V. Razbudey, A. Sanzhur (Institute of Nuclear Research, Prospect Nauky, 47, Kyiv, Ukraine) Calculations of neutron source at the Kyiv research reactor for the Boron neutron capture therapy aims .....	<b>273</b>
<b>29. O. Gritzay</b> , V. Koloty, V. Libman, O. Kalchenko, N. Klimova (Institute for Nuclear Research, Prospekt Nauky, 47, Kyiv, Ukraine) Well known and new neutron filters and employment of them for fundamental and applied investigations .....	<b>279</b>
<b>30. Oguz Ertugrul</b> (Department of Physics, Faculty of Sciences, Anadolu University, Eskisehir, Turkey) Small angle neutron scattering study on star DI-block copolymers .....	<b>291</b>
<b>31. A.J.M. Al-Azzawe</b> (Nuclear Investigation Center, Argentina) Mesurement of inelastic scattering cross sections for reactor fast neutrons from $^{174}\text{Yb}$ using time of flight technique .....	<b>299</b>
<b>32. E.A. Eissa</b> , A. El-Khayat, N.F. Soliman, L. Ashmawy, and A.H. El-Farrash (Reactor Physics Department, Nuclear Reseach Center, AEA, Cairo, Egypt) Neutron flux distributions in a $^{252}\text{Cf}$ irradiation cell for NAA .....	<b>305</b>
<b>Nuclear Structure and Spectroscopy</b>	
<b>33. A.A.L. Alzubadi, and M.M. Elias</b> (Department of Applied Science, University of Technology, Baghdad, Iraq) Photon and energy yields of EB generated by the complete absorption of beta particles from $^{90}\text{Sr}$ - $^{90}\text{Y}$ using magnetic deflection technique .....	<b>313</b>
<b>34. F.Z. Ighezou</b> , S. Gueribah, and R.J. Lombard (Universite des Sciences et de la Technologie Houari Boumediene BP. 32 El Alia 16 111 Bab Ezzouar, Alger, Algeria) From the spectrum to the potential .....	<b>325</b>
<b>35. F. Bissey</b> , F.G. Cao, and A.I. Signal (Institute of Fundamental Sciences PN461 Massey University, Private Bag 11 222, Palmerston North, New Zealand) The structure functions $g_1$ and $g_2$ of the nucleon in the meson cloud model ...	<b>335</b>

<b>36. Laleh Farhang Matin</b> (Faculty of Science, Shiraz University, Iran) Spin cut-off factor from the low level scheme .....	<b>341</b>
<b>37. Ch. Stoyanov</b> and N. Lo Iudice (Institute for Nuclear Research and Nuclear Energy, 1784 Sofia, Bulgaria) Microscopic description of mixed-symmetry states in nearly spherical nuclei ...	<b>348</b>
<b>38. D.L. Salamov</b> , S. Unlu, T. Babacan, A. Kucukbursa, and E. Kilicikan (Department of Physics, Celal Bayar University, Manisa- Turkey) Calculation of the $1^+ \rightarrow 0^+$ allowed Gamov-Teller beta transition $\log(ft)$ values in spherical nuclei .....	<b>358</b>
<b>39. H.M. Khalil, H.A. Abdel Ghany</b> , and H. Yassin (Physics Department, College for Women, Ain Shams University, Cairo, Egypt) Description of the interaction boson-fermion model for ${}^9\text{B}$ and ${}^9\text{Be}$ nuclei ...	<b>371</b>
<b>40. Mehdi Nasri Nasrabadi</b> (Physics Department, Kashan University, Kashan, Iran) Nuclear level density of ${}^{166}\text{Er}$ with static deformation .....	<b>379</b>

#### **Detectors and Instrumentations**

<b>41. T. Sharshar</b> and <b>K.R. Mahmoud</b> (Physics and Chemistry Department, Faculty of Education, Tanta University, Kafr El-shaikh, Egypt) Performance studies for a positron annihilation lifetime spectrometer with optimized energy window settings .....	<b>383</b>
<b>42. G. Belovitsky, E. Konobeevski</b> , A. Stepanov, V. Zavarzina, S. Zuyev, N. Polukhina, N. Starkov, A. Aleksandrov, S. Lukyanov, and Yu. Sobolev (Institute for Nuclear Research RAS, Moscow, Russia) Photoemultion method of study of neutron halo using neutron transfer reaction ...	<b>389</b>
<b>43. Salimeh Kimiagar</b> (Department of Physics, Faculty of Science, Islamic Azad University of Tehran, Central Branch, palestine Sq., Tehran, Iran) A simple method for X-ray monochromating .....	<b>399</b>
<b>44. M.A.M. Uosif</b> (Physics Department, Faculty of Science, Al-Azhar University, Assiut, Egypt) Ninth degree polynomial fit function for calculation of efficiency calibrations for Ge(Li) and HPGe detectors .....	<b>407</b>
<b>45. Marco Barucci</b> , Luca Foggetta, Andrea Giuliani, <b>Giancarlo Jug</b> , Claudia Nones, Emiliano Olivieri, Marisa Pedretti, Gianluigi Pessina, Lara Risegari, Samuele Sangiorgio, and Guglielmo Ventura (DERBY Collaboration, Como, Firenze, Milano, ITALY) ....	<b>417</b>

<b>46. R. Sacchi (on behalf of CMS Muon Group)</b> (Universita degli Studi di Torino and INFN, via P. Giuria, 10125 Torino, ITALY) Drift tube muon detectors for the CMS experiment .....	<b>429</b>
--	------------

### Computer Codes and Simulation

<b>47. M.K. Seddeek, A.M. Kozae, T. Sharshar, and H.M. Badran</b> (Department of Mathematics, Faculty of Science, Tanta University, Tanta, Egypt) The use of principal component, discriminate and rough sets analysis methods of radiological data .....	<b>435</b>
---	------------

<b>48. H. Bendjama, Y. Laib, A. Allag, and R. Draï</b> (laboratoire de Traitement du Signal et de l'Image, Centre de Recherche Scientifique et Technique en Soudage et Contrôle, Bp 64 Route de dely Ibrahim Cheraga, Alger-Algeria) Monte-Carlo simulation of primary electrons in the matter for the generation of X-rays .....	<b>447</b>
--	------------

<b>49. L. Ait Gougam, A. Chikhi, S. Biskri, and F. Chafa</b> (Theoretical Physics Laboratory, Faculty of Sciences/ Physics, USTHB, B.P.32, El-Alia, Algiers, Algeria) Numerical analysis of different neural transfer functions used for best approximation .....	<b>453</b>
--	------------

<b>50. A. Chikhi, L. Ait Gougam, and F. Chafa</b> (Theoretical Physics Laboratory, Faculty of Sciences/ Physics, USTHB, B.P.32, El-Alia, Algiers, Algeria) Multiscale analysis of a function by neural net works elementary derivatives functions .....	<b>461</b>
--	------------

### Radiation Measurement and Dosimetry

<b>51. Sh.M. Al-Aseery, Z.L. Alamoudi, and A.M. Hassan</b> (Reactors Physics Department , NRC, Atomic Energy Authority, Cairo, Egypt) Elemental analysis of water and soil environmental samples in Tabuk area by neutron capture gamma-ray spectroscopy techniques .....	<b>469</b>
--	------------

<b>52. M.K. Seddeek, T. Sharshar, and H.M. Badran</b> (Department of Physics, Faculty of Education, Suez Canal University, Al-Arish, Egypt) Inter-composition study of the population dose due to gamma-radiation in the coast of north Sinai between Rafah and Bir El-Abd areas .....	<b>479</b>
---	------------

<b>53. K.E.M. Mohamadain, A.C.P. Azevedo, M. Dahab, Kh. Hassan</b> (Physics Department, Faculty of Science, Sudan University of Science and Technology, Khartoum, Sudan) Dose survey of pediatric and adult patients in Sudan .....	<b>489</b>
---	------------

## Activity Reviews and Plasma & Fusion Physics

<p><b>54. S. Sangiorgio, etal</b> (Dipartimento di Fisica e Mathematica dell'Universita dell'Insubria e Sezione di Milano dell'INFN, Como I-22100, Italy)            Neutrinoless double beta decay search for <math>^{130}\text{Te}</math>: Cuoricino status and Cuore prospects .....</p>	<b>499</b>
<p><b>55. P. Vitulo, etal</b> (Dip. Di Fisica Nucleare e Teorica-Pavia Univ. and INFN Pavia, Italy)            A resistive plate chamber muon detector for the CMS experiment at LHC .....</p>	<b>509</b>
<p><b>56. R. Saoud, A. Soualmia, C.A. Guerbi, and N. Benrekaa</b> (Faculty of Physics, Department of Material Physics, University of Science and Technologies U.S.T.H.B. BP 32 El-Alia- BabEzzouar- Algiers-Algeria)            Dielectric spectroscopy technique applied to study the behavior of irradiated polymer .....</p>	<b>519</b>
<p><b>57. N. Amrani, S. Nehaoua, and A. Boucenna</b> (Laboratory for Dosage and Analysis of Characteristic in High Resolution DAC, Physics Dept. Faculty of Sciences, UFAS University, Algeria)            Partitioning and transmutation of <math>^{99}\text{Tc}</math> in fission reactors and hybrids systems ...</p>	<b>531</b>
<p><b>58. Mehdi Harzchi, Hami Farid Yosofi, and Naser Alinejad</b> (Nuclear Fusion Research Center, Magnetic Confinement Fusion Division, Atomic Energy Organization of Iran)            Simulation of bootstrap current by hirshman single-ion collisionless model in Damavand Tokomak .....</p>	<b>537</b>
<p><b>Author Index</b> .....</p>	<b>542</b>
