

All normal weekly runs must be for men only i.e. If the group runs on Mondays then all Mondays must be kept for men only regardless of occasions.

Similarly all celebration runs must also be for men only. As for the day after celebration i.e. footbrawl or any other activities, there are 2 schools of thoughts here. Alor Star, Tanjong Petri & Seletar suggested that even this be for men only which means no women would be allowed for the complete celebration. However, Penang, Ipoh and Petaling Jaya feel that other activities before or after the day of Celebration run is only an optional feature and therefore should not be compulsorily imposed but to leave to the hosts to decide. Anyway on this, the meeting agreed to gather more views.

Penang enquired on their coming Celebration where Monday, their normal day of run will be opened to all as an extension of their celebration and since this will be a holiday. The majority felt that no exception should be made for a normal day of run and suggest Penang to change their celebration run to the Monday and have Saturday as an 'open' run.

The meeting was also informed of the fact that Sungei Ujong and Seletar Hashes recently opened their celebration runs to women. However, majority felt that bygones should be bygones and that what matters most would be what occurs after this meeting.

The meeting ended with a hope that more Harriers would support the 'Save Wildlife' and that all will submit their comments on the meeting or whatever to :
