Other Software: Crystal Reports, Microsoft Project, Visio, Verity Teleform

PROFESSIONAL EXPERIENCE

Womble, Carlyle Sandridge and Rice, PLLC Jun 99 – Present Winston-Salem, NC

Lead Developer and Database Administrator

At Womble I have been involved in five large projects. The last three of which I served as lead developer. The team reports to the boards of directors, which includes state governors. We work closely with the board on matters politically important to the states involved. The issues we addressed were under severe time constraints and vital to the state economy. The programs my team developed streamlined operations and improve efficiency.

- Reported to project manager and lead development team through requirements gathering, analysis, system modeling, design and development.
- Served as programmer and a database administrator on the two largest class action settlements in state history. Projects distributed 1.5 billion dollars to three hundred thousand people.
- Managed up to 6 programmers.
- Oral and Written Communication with Management and Technical staff.
- Lead developer on 3 other multi billion-dollar settlements.
- Database Design/Conversion/Administration
- Client/Server Application Development
- Full Life Cycle / Rapid Application Development
- My team developed software with features such as image management, check printing, payment history, call center, quality control and dispute resolution.
- Integrated internally developed settlement administration system with third party OCR/imaging software.
- Developed project dashboard that integrates live charts and graphs. Implemented with PHP, JavaScript and MySQL.
- Maintained secure web site that displayed live payment data.
- Configured/Installed/Administered Linux web and database servers running Apache, MySQL and PHP.

Southern Mutual Insurance

Jan 95 - Jun 99

Columbia, SC

Programmer and Database Administrator

- Developed, maintained and deployed databases. Maintained old programs and developed new systems using VB 3/4.
- Administered MS SQL Server and MS Exchange servers.
- Administered an Informix DBMS on a SCO UNIX server.

TRAINING

VB.Net

XML

MS SQL Server 6.5 – Passed MS SQL Server Administration test

SCO Unix Administration

ArcGIS

EDUCATION

Virginia Tech

1994

Blacksburg, VA

Bachelor of Science, Management Science: Decision Support Systems focus

Sample courses: Structured Systems Development, System Design, Pascal, COBOL, Data Modeling
