

We cannot afford to backtrack. We need leadership and a continued governance to lift our community above divisive and stridently partisan politics and racial and geographic separations. Sam Jones is a consensus-builder. He will appoint and lead consistent with our progress. We need a disciplined community.

I ask Mobilians to look carefully at both candidates' proven and accomplished track records. Actions speak louder than words. Plans must be skillfully implemented. Character, truth and integrity are colorblind.

I will vote for Sam Jones on September 13. I ask you to join me. Together, we can and will continue our remarkable progress that has been accomplished over the past several decades.
