

HISTORY OF PORTAL

Portal Web Designs was founded in Hermiston, Oregon in August 2003 by Clint Shoemake. The original intent was to be a small business to provide web sites for other small businesses in Northeast Oregon and Southeast Washington. Due to popular demand, Portal later expanded to offer other multimedia presentations as well.

THE OWNER / WEBMASTER

I, Clint Shoemake am the owner and webmaster of Portal Web Designs. I'm 26 years old, married and live in Hermiston, Oregon, where I work full-time as a Database Specialist. I am slowly working toward an AAS in Computer Information Systems through Kaplan College in my spare time. I have been working with HTML and designing web pages for over 10 years, and have taken on numerous web design and multimedia-related projects for friends, family and on the job.

WHAT DO I OFFER?

Portal Web Designs offers affordable web site design and maintenance for your small business. In essence, I offer your company additional advertising and increased business using today's technology. Aside from web sites, Portal also offers customized Microsoft PowerPoint presentations. Whether you need a professional looking presentation for a conference or trade show, or you're interested in the increasingly popular and memorable wedding slide shows, I can do it. And if I don't currently offer a service, ask me anyway.

MY MISSION

Like the tagline reads, Portal was designed to create and maintain web sites and various multimedia presentations for small business in Northeast Oregon and Southeast Washington. Although larger businesses are not out of the question, Portal itself is a small entrepreneurship and can relate to your needs. My goal is to work with my customers face-to-face, and develop a relationship to better understand and meet your wants, your needs and your budget!

WHY PORTAL?

As mentioned, Portal is a small business and can relate to your needs. I understand how vital it is in this day and age to secure a spot on the Internet. A web site is just what your business needs to get its name out there and/or generate additional business at a minimal cost to you. And let's face it, business savvy or not, not every business owner is overly computer literate, let alone familiar with HTML and web design. That's why I do the dirty work for you!

HOURS OF OPERATION

I will make every effort to be available to customers at all times. However, as I am employed full-time, this can be difficult. My cell/business phone, (541) 571-8581, should nearly always be available. If not, my home phone, (541) 289-7463, can be an alternate means. I will make every effort possible to work around your schedules and am willing to travel to meet your needs.
