What is LeTip?

What people are saying:

I tried the Chamber of Commerce, Rotary clubs and various other organizations to help get my small business off the ground, but saw few results. Once I joined LeTip, my business really took off! No other organization offers such a friendly forum to exchange such useful ideas, tips and business leads like LeTip does.

-Mark W. Elice, DMD

LeTip is a business networking organization with local chapters whose members help your business grow locally.

LeTip members succeed through weekly referrals ("tips") from other chapter members.

There are many programs that help promote your business internally as well as externally.

Membership with LeTip gives you the opportunity to tap into new, unexplored customer bases.

Each business category is represented by one member and conflicts of interest are disallowed. This means that once you are a member, your competitors are not allowed to join.
