

Service Package Builder Worksheet

Payment Method: Monthly Quarterly Annually

Core Services

Start by using the Service Package Builder price sheet to select the core service package that's right for you. Enter the cost on the right.
Don't want a core? SKIP THIS SECTION.

Select	Payment
<input type="checkbox"/> Platinum <input type="checkbox"/> Gold <input type="checkbox"/> Silver <input type="checkbox"/> Bronze	

Equipment Coverage

For each item type, count the number of items you would like to cover and enter that value in under QUANTITY. Use the Service Package Builder price sheet to fill in the Payment amount, then figure the Extended amount. Don't have any items to covered? SKIP THIS SECTION.

Item	Quantity		Payment		Extended
Desktop PCs, 0-2 years old		X		=	
Desktop PCs, older than 2 years		X		=	
Laptops, 0-2 years old		X		=	
Laptops, older than 2 years		X		=	
Servers, 0-2 years old		X		=	
Servers, older than 2 years		X		=	
Node Devices, 0-2 years old		X		=	
Node Devices, older than 2 years		X		=	
Total					

Additional Services

Use this section to customize your package. Select the service you would like, then enter the number of equipment devices to be covered by that service. Use the Service Package Builder price sheet to fill in the Payment amount, then figure the Extended amount. Services with quantity previously filled in cover your entire system for one price. Don't have any additional service needs? SKIP THIS SECTION.

Item	Quantity		Payment		Extended
Antivirus Protection per Desktop or Laptop		X		=	
Single loaner equipment: PC		X		=	
Single loaner equipment: Laptop		X		=	
Single loaner equipment: Server		X		=	
Single loaner equipment: Node		X		=	
System Monitoring Service	1	X		=	
Off-site backup storage	1	X		=	
Monthly Desktop Maintenance		X		=	
Quarterly Server Maintenance		X		=	
Total					

Figure Package Total

Add the total amounts from each section to figure the total cost for your service package.

Core Services		Equipment Coverage		Additional Services		Total Package Price
