### Electronic Career Portfolio: Lawyer

The general direction of my career is to become a lawyer, however, I am going to go as far as to extend to political sciences, as it is a personal interest of mine, and I am going to be making my letter of application and resume directed towards architecture.

For my presentation I used Microsoft Power Point, and for my resume and letter of application I used Microsoft Word. The website that I have created as an extra is supported by freewebs.com, and my other three extras are as follows: my school schedule and courses, a computer program that simulates civil engineering and design. My other extra is an example of my education: my ERB test scores, which are located on the Table of Contents page on the power point.

My sources include <http://en.wikipedia.org/wiki/lawyer>, and <http://us.jobs.com/jobsearch.asp?q=lawyer&re=0&sort=rv&tm=&cy=US>. **To run my electronic portfolio, open the DVD (do NOT play it in a Media Center), then open the power point, and follow the hyperlinks on the table of contents page in order to view my resume, letter of application, website, and other slides of the power point.**

If the hyperlinks for some reason fail, my resume, letter of application and website address will also be placed on the DVD, in Microsoft Word format. You may also be able to access my website, resume, or letter of application from the list of table of contents that are located on the next page.

My Table of Contents is as follows on the Power Point Presentation,
