

The Salisbury Affiliate of
PAGE
(Pennsylvania Association for Gifted Education)
*invites you to our
November 7th meeting
at Salisbury Middle School
7:00 to 9:00 p.m. **

Our speaker will be Todd McIntyre.

*He will be speaking to us about the identification process and
individualizing your child's GIEP.*

Todd McIntyre is a gifted education advocate and a former PAGE parent of the year. His website, www.appliedgifteded.com, provides a wealth of information for parents and students new to the gifted program as well as those who have been involved for years. Specifically, Todd will be presenting

*“Identification of Your Gifted Student“
and “Individualizing Your Child’s GIEP.”*

The first part of the meeting will be devoted to the identification process.

*Should your child be tested?
How do you go about requesting an evaluation?
What does the process entail?*

The remainder of the evening will focus on
individualizing your child's GIEP.

This meeting is open to every parent and staff member.

*You don't have to have an identified child to participate.
We would specifically recommend this workshop to you if your child is already included in gifted
classes or you think he or she should be!*

*Please contact Becky Glenister (610-434-8448) or
Julie Bolton (610-966-6400) to RSVP or for more information.*
While we appreciate your RSVP, we will be able to accommodate any last-
minute guests!

*Please feel free to attend all or part of this meeting
