Quark are a three piece indie rock outfit influenced by Nirvana, Custard and Sevendust. We played the Indie Temple in its closing week, and our most recent gig was at Gilhooley's in Chermside, where we reached the semi-final in the Qld Rock Awards. Aside from this we have played numerous party gigs and birthdays. We have had our demo played on 4zzz, and we had an interview with Ugly Dave on the Demo Show. We also had a brief mention and a photo in Rave magazine on October 25th.

Please contact us through the above phone number or by email, for any more information.

Thank you.
