

Education Outreach Program

Introduction

Nothing beats hands-on learning to build a child's interest and enthusiasm. With that in mind, the Education Outreach Program (EOP) strives to enlighten students through the various educational programs.

Objectives

- To instill the value of self-worth to children of Nepal through organized recreational programs.
- Enhance the sense of action and consequences through self-initiated activities.
- Nurture creativity, adventure and understanding of our responsibilities toward nature and its resources.
- Develop leadership by community work and global awareness.
- Empower cooperation, sense of duty and spiritual awareness by group involvement.
- Reach self-ascertained goals by proper planning and implementing.

Program Highlight

- **Environmental studies** will help form a valuable knowledge base in motivating students to initiate environmental actions in their schools and communities. Outreach environmental education sessions through sensory exploration, active games, hands-on experiences will be included.
- **Group dynamics** program will develop leadership, trust and cooperation. Games will be the tools that will motivate sequential planning. Games have been designed to allow initiative tasks and problem solving experiences.
- **Language and communication** skills program will be developed through elocution, dramatics art and music. English will be the medium of education

EOP is a brain-child of Mr. Gyan Lal Maharjan, a veteran educator. After graduating from St. Xavier's School, Jawalakhel in 1981, he started teaching at St. Xavier's School, Godavari till 1997. Within this time, he finished his Bachelor's Degree in Education. He has worked with several U.S. outdoor camps. Twice as a summer camp counselor, once as a unit leader, and finally as an Environmental Outdoor Educator. With this experience, he was able to start special EOP program in Nepal. Now he needs your help to further develop this outstanding program for kids in Nepal.

Who

The target group for this educational program are rural/urban underprivileged children who otherwise would not be able to benefit from a broader education experience. Each child would require approximately \$50.00 per year. Your \$50 donation will be used for training and educational materials. The program will be 2 hours every day after school and weekends would be utilized for environmental education.

Your generous contribution can certainly make a big difference and bring a drastic change in uplifting the education level of the underprivileged children of Nepal.

Your help will be appreciated in any of the following form:

- Cash donations.
- Stationary, audio/visual equipments.
- Shipping costs.
- Volunteering your time in Nepal

You Can MAKE A DIFFERENCE:

With your generous support, we can make a difference in children's' live in Nepal. Let's teach and educate them. But there is still so much to be done. And so much more is possible.
