

EVOC 518 Course Evaluation

David Wiget CADC-II

My name is David Wiget and my email address is: onearmred@msn.com. My web site is: <http://www.geocities.com/reddogy99/> I specialize in Substance Abuse Treatment and Recovery. I currently work at Aurora Behavioral Health Care in Covina, CA. as a Certified Alcohol and Drug Counselor II (CADC-II). At this time I am no longer teach under any state or county regulated manner however I do use the 5 step lesson plan in many of the groups I facilitate.

I found the information in the E-TEXT to be very organized and easy to follow. The directions were clear cut and precise. The examples made the objectives come to life. All the assignments are extremely valuable and useful, especially the reading assignment [The Seven Habits of Highly Effective People](#).

The thing I liked best from the course was the positive nature it was presented. It seemed to help me focus on my strengths and create motivation and inspiration. I learned how to post a power point presentation on my web site and develop effective lesson plans. Even though this is a distance learning class I did have the opportunity to attend EVOC 501 and 519 using the traditional method. By attending the actual classes gave me a better understanding and perception of a teaching method I hope to emulate in my professional endeavors. THANK YOU!
