

Rewired Reviews

"Austin---Any experienced gardener will tell you roots are all well and good, but new growth is what it's all about. The same applies to music. Merely knowing where your sound came from isn't enough. Knowing where it's going and having the talent to take it there is what separates the men from the boys.

REWIREDD, with attitude and expertise to spare, is a full-grown band just now bursting into bloom."

- Michael Point/Freelance Journalist

"Rewired is blues & roots rock at it's best! It is an exciting and fresh take on the blues. Brian Jobe and Dan Vela are the cornerstone of one of the best rhythm sections around. Rewired is a must see!"

-Jim Beggs/Rocksaw Productions

"If all the electricity has gone out of your dancin' shoes, you need to get yourself Rewired!"

Here's a fresh sound with a different sort of voltage. It's a hot mix of original material and tastily arranged covers done with an eclectic, electric style. This is not your same old guitar driven rock group. Go see 'em. You'll be charged up all night."

- Tim Northcutt/Hot Rod Music

" From the live music capital of the world comes a soulful sound, true to the spiritual blues and narrow back beat that is Texas music...Rewired for the new millennium."
