

Create a Web site

Create a Web site

1. Use one of the following methods to create a Web site consisting of at least three pages:

3-Page Web Site template
Easy Web Site Builder

2. Add two additional pages to your Web site, and make sure they're linked into the navigation bar.
3. Modify the navigation bar's appearance and/or location.
4. Add at least two text hyperlinks and two graphical hyperlinks.
5. Use the Publish to the Web feature to publish the Web site to a folder within your My Documents folder on your own hard disk, and then use Microsoft Internet Explorer to view it.
