

The Desert of Tattoine

A custom map for

This is a map based on a tile that was released by Wizards of the Coast for the Star Wars Miniatures Skirmish game. The original tile can be downloaded here:

<http://www.wizards.com/default.asp?x=swminis/article/swmtileset1>

This map removes the half with the Sarlaac and removes some of the SWM-specific markings from the map.

The map tile is exactly half the size of a standard ED map. Also included as a plain map sans rocks and obstacles. Print two of either or one of each and put them together to form a map. The rocks block all movement and line of sight for combat purposes.

Enjoy!
