I Remember my grandmother as a person who always took care of me. My father would take me to her house in South San Francisco at 6am. A person who has my first memories. I would wake up in her bed. She always had Tang at her house and I would drink it. She would also take me to walk in Grand Avenue to go shopping, and she would buy me candy. Beautiful memories of my grandmother.

Later I would visit my Grandmother in Mexico for a few months every summer. She would always want me to stay and watch T.V. with her. I could tell she liked my company. Even more when I could speak to her in Spanish.

Still these memories are ingraved in my heart. Forever to me she was the best.
Cha Chan in my heart forever.

I love you Cha Chan.
