

- Liberate India from British rules and laws, as there is free lunch.
- Secular state is not legitimate; Religion should not be separate from state. It should be foundation of the state.
- Politicians can't be trusted for solving all our problems.
- Politics is struggle between good and evil.
- We should create our own Media.
- Media corrodes the Faith and promotes violence lust and adultery and all are motivated by greed.
- Education –a great war is being waged.
- Family values symbolize every thing, which is true and good.
- We must always be vigilant against those who are working for their own interest instead of public. It is time to draw a line.
- Moral decline is the root cause of what is wrong with our India.
- Beliefs are not just theoretical they should be practical and produce results.
- Success is ladder, society a hierarchy and getting there to top is the most suitable Goal.
- Economic Growth is the practical foundation on which human values depend.
- Private sector creates value, the public sector feeds of it.
- Competition inspires, greatness, punishes laziness and makes system work.
- Growth competition and efficiency all depend on innovations.
- The cost of Technology are vastly over weighted by its extraordinary benefit
- Free market + high tech = the most productive advanced society.
- Corruption busters deserve to be rewarded only person who is receiving the bribe to be punished.
- Great wealth is evidence of generosity not greed a sign of virtue not vice.
- Liberty means keeping Government out of people's business.
- History books tells us story of oppressors. The story of oppressed is full of lies.
- Any one who stands against the system of oppression risks the assassination and imprisonment.
- Racism runs so deep in India that no law can eradicate it the myth of melting pot is dead /destroyed with racism.
- Exploitation – Mr. Hope is gone or dead.
- From Banks to schools to the market place every situation victimizes the poor.
- Crime and drugs are used by the establishments to weaken and undermines the underclass.
- Sexism is the war against women.
- Whatever gains women makes men immediately try to take away.
- Oppression – we didn't have a fighting chance.
- Even some children of privilege join the fight against justice.
- Major Medias are nothing but the tools of oppressors.
- Economically and politically media keeps India weak and unhealthy.
- Any attempt against media 's freedom is unfair and undemocratic they should be allowed to work freely.

- Objectivity- to let things be what they may be means respecting the facts more than your self interest.
- Clear violation of Journalistic integrity are neither recognized nor punished.
- The violation of secrecy involves exposing the truth is a necessary part of democracy.
- Journalist should open minded, unbiased and non - patrician.
- Popularity is only principle for deciding what is broadcasted, printed in media.
- Media must protect it self against Government manipulations by giving the advertisements as form of bribe.
- Violence is not caused by media but a mere reflection of a violent society.
- The more deeply the public is involved in the media the better it is for Indian democracy.
- Virtual reality is not myth it is better place to live than reality itself.
- Mass media undermines Human values and obscure the sacredness of creation.
- Lower consciousness is the problem and higher consciousness is the solution.
- The earth is closest to god, the true source of wisdom and salvation.
- Those who are in higher consciousness must provide the leadership to save India.
- Total freedom and perfect bliss is revolution by consciousness.
- Source of social progress is the evolution of human consciousness.
- In education the core beliefs are that it is a process not a product of inner life, of a student's life, which only comes from family values.
- Economics should recognizes the human variables not as reactive or mechanical response but as proactive – that is a emphasizing human choices and responsibilities.
- Politics – Transformation in individual as essential to successful reform and a reduction of centralized and compartmentalize burocracy in favor of decentralize interdisciplinary structures.
- Business – it should not be based only on Gains only but making rooms for the employees creativity not just their productivity and a fundamental rebalancing the priorities away from competition towards collaborations.
- Old saying thinking requires enemies but new thinking is every body should be a winner- win, win, win for all.
- All religions are part same design of natural world.
- Saving India requires that we all adopt alternate life styles.
- Overly commercialization is leading to destruction of the natural world order.
- Personal – Family, Education, Media, and Morality.
- Politics - Racism, Poverty, Sexism, Oppression.
- Media – Freedom, Objectivity, Rating, Technology
- Religion – Spirituality, Enlightenment, Planet, Peace.
- The more divided the public the more vital role of Governments becomes.
- The active Government may make mistakes but at least it should try to defend the true interests of public and nation after admitting the mistakes and try to correct these.
- Goal of Government should be that life in India is fair and equitable for all.

- In a society scarred by injustice and inequality the Government should be a force for fairness.
- The private sector worships the projects but at least public sector should serve the public from where they get their strength.
- Government agencies should be accurate unbiased information.
- We need a Government which is customer driven collaborating decision making, renovating government in a new team environment.
- We shall be nobly save or meanly loose, the last ditch efforts of Public for the public and by the public.
- What paralyzes the Indian people is pitted against each other rather than working with each other.
- Patriotism must be living force growing and changing like the country it self.
- Blind obedience of the old Patriotism has corroded into cynicism.
- The new patriotism inspires collaboration and partnership not partisans.
- Patriotism is not enough. There has to be citizenship as well. Citizenship is the willingness to contribute to ones country. It also means the willingness to live for not die for one's country.
- The new Patriotism seeks collaborations toward a common goal. The faith of the new Patriot transcendent, Race Class and Religion.
- We have our duties towards our less fortunate fellows rather than only to religious institutions.
- The community cannot revitalize all by it self; all three forces Public, Private and the crucial citizen sector must work together.
- People exploit the differences for their own purposes.
- Treating everybody with respect and being treated with respect makes everybody feel good.
- Community Development Corporations (CDC) evolves positive collaborations between people of all walks of life.
- Stop blaming but take responsibility of our own future.
- Working in partnership with community the media can connect rather than polarize.
- Instead of taking refuge in conformity. Let us all engage with diversity.
