

Intro to Mollusca

1. Define the following vocabulary from Chapter 22.2 on Mollusks...

Mantle	Coelom
Mantle cavity	Radula
Open circulatory system	
Closed circulatory system	

2. Describe different ways that mollusks move.
3. Describe different ways that mollusks eat.
4. Summarize mollusk reproduction.
5. Which class of mollusks are the only ones to have a closed circulatory system? What types of animals are in this class?
6. List the other 3 classes described in the book and give examples of animals in each class.
7. Copy the squid diagram (shown on the back) into your notes.
