Detailed index

Table of contents	3
Acknowledgements	4
Abstract	6
Field leaflet	8
Glossary	9
1. Introduction	11
The scale of food insecurity and HIV/AIDS impact in Africa	11
The agricultural sector's response	12
Justification	16
Additional considerations	18
2. Priority issues and strategic action at the rural grassroots	20
Reviewing food insecurity	20
HIV/AIDS impact in rural communities	22
Household nutrition	26
Labour stress	29
Agroecological approaches and sustainable rural livelihoods	30
Gender equality	32
Community mobilisation	35
Strategic action: Agrobiodiversity and indigenous knowledge	38
3. Traditional, neglected and under-utilised crops	41
Description	41
Strategic values and potential	46
Crop diversity in arid and semi-arid ecosystems	48
A neglected cereal: The African rice	52
A neglected, but reviving root crop: Yams	53
Crop genetic diversity and farmer varieties	54
Home garden crops and wild food plants	57
Crop dynamics and coping with HIV/AIDS impact	58
Food storage, processing and preservation	58
Gender aspects around crop diversity	60
Conclusions and recommendations	64
4. Agricultural diversification	65
Overview	65
Values, benefits and potential roles	68
Crop diversity	70
Intercropping systems	73
Indigenous farming: The <i>chihali</i> system of the Gogo people (Tanzania)	74
Concluding comments	78

5. Home gardens	79
Value and potential of home gardens	79
Crop diversity in home gardens	81
Targeting household nutrition	86
Food preservation and processing	87
Recommendations	88
6. Wild food plants	89
Knowledge and consumption of wild food plants	89
Value and potential of wild food plants	92
Recognition, promotion and sustainable use of wild food plants	93
Recommendations	95
7. Medicinal plants	96
HIV/AIDS and healthcare	96
Medicinal plants and traditional healthcare systems	97
Medicinal plants and HIV/AIDS	99
The organisation THETA in Uganda	100
Concluding remarks	105
8. Community seed systems	106
Seed insecurity in rural Africa	106
Formal <i>versus</i> farmer seed systems	110
A critical analysis of formal seed systems	111
Reconsidering farmer seed dynamics	113
Grassroots efforts towards seed security	115
Community seed systems	117
Seed relief	120
Concluding remarks	122
9. Livestock and agropastoral systems	123
Introduction	123
Multi-functionality and potential of livestock production	124
Indigenous livestock resources and knowledge	127
Improving livestock resources and management	130
Crop-livestock systems	131
Policy and programme recommendations	132
Conclusions	134
Epilogue	143
References	145
Detailed index	149
Lists of boxes, tables and acronyms	151
Field leaflet in the following languages: Français / Português	153

List of boxes

1. Overview of field research	15
2. Towards an integral approach to food security	20
3. Integral approach to food security among smallholder farmers	22
4. "Nutrition is the first medicine for HIV/AIDS"	26
5. Reflections around household nutrition action	28
6. Major factors of labour stress due to AIDS	29
7. Examples of agroecological practices	31
8. Gender equality and food security	35
9. Community mobilisation around agriculture as a force to fight HIV/AIDS	36
10. Supporting AIDS and war orphans through agricultural support: Partage-Tanzania	37
11. Agrobiodiversity and indigenous knowledge: The HIV/AIDS paradox	38
12. Conservation and use of biodiversity in the international arena	39
13. Agrobiodiversity and gender	40
14. Description of traditional, neglected and under-utilised crops	42
15. Constrains and causes of erosion in traditional, neglected and under-utilised crops	45
16. Under-utilised crops and species	46
17. Main crops of the Sahel region in West Africa	50
18. Farmer genetic diversity of groundnut in Asuret area, Uganda	55
19. Traditional sweet potato varieties in the villages of Mawero parish (Uganda)	56
20. Wild food plants and home garden crops throughout African environments	57
21. HIV/AIDS and gender changes around crop diversity: Experiences from Kagera region	63
22. Agricultural diversification systems and practices: Selected examples	66
23. Analysis of the indigenous <i>chihali</i> agricultural system (Dodoma, Tanzania)	76
24. HIV/AIDS and Gogo farmers in the drylands of Tanzania	78
25. Home gardens: Distinctive agricultural, food and nutrition roles	81
26. Agrobiodiversity and healthcare	97
27. Roles of medicinal plants in combating HIV/AIDS	99
28. Potential roles of traditional healers in HIV/AIDS mitigation	104
29. Selected causes of seed insecurity in Africa	107
30. AIDS impact on seed security	107
31. Seed insecurity among farmers suffering HIV/AIDS: The case of Joyce Igoru	109
32. Limitations and impacts of the current formal seed sector	111
33. Trends of privatisation and genetic manipulation in seed production	112
34. Examples of the roles of farmer seed dynamics in AIDS mitigation	114
35. Suggested initiatives for community seed systems	118
36. Agricultural emergencies and seed relief in the context of HIV/AIDS	120
37. Ecologically and culturally appropriate seed relief	121
38. Livestock and rural livelihoods in Africa	123
39. The potential of goats in supporting rural women	126
40. Livestock and social inclusion: Implications for HIV/AIDS action	127
41. Veterinary plant resources	129
42. Public health and environmental considerations in livestock production	131

List of tables

1. HIV/AIDS response framework: Principal concerns and the agricultural sector	25
2. Selected traditional, neglected and under-utilised crops in Sub-Saharan Africa	43
3. Crop diversity in the <i>chihali</i> system of the Gogo people, Tanzania	51
4. Gender roles and socio-economic aspects of crops in Kagera (Tanzania)	61
5. Crop diversity and land use management in Kagera region, Tanzania	71
6. Crop diversity in eastern Uganda	71
7. Crop diversity in Soroti district (central Uganda): Agroecological and labour aspects	72
8. Selected home garden crops among farmers of Soroti district, Uganda	83
9. Leafy vegetables on sale in Soroti market (central Uganda)	84
10. Selected crops for home gardening	85
11. Common home garden crops that are rich in key nutrients	86
12. Selected wild food plants among the Gogo people in Dodoma drylands (Tanzania)	91
13. Healthcare in Africa: Modern doctors and traditional healers	98
14. Medicinal plants and HIV/AIDS	103

List of acronyms

AIDS	Acquired Immune Deficiency Syndrome
FAO	Food and Agriculture Organization of the United Nations
FFS	Farmer Field School
HIV/AIDS	Human Immunodeficiency Virus / Acquired Immune Deficiency Syndrome
IFAD	International Fund for Agricultural Development
TAWLAE	Tanzanian Association of Women Leaders in Agriculture and Environment
THETA	Traditional and Modern Health Practitioners Together against AIDS and other diseases (Uganda)
UWESO	Ugandan Women's Efforts to Save Orphans
