Annie Bolton

Fashion Design and Textile Patterns

Table of Contents—Fashion Design

Vision

- I believe that in order for one to achieve one must work hard and make good choices. If one does not work hard, one will not be experienced enough to know how to work on challenging situations. Also, if one does not make good choices, they're work will turn out bad.

Career Goals

- My career interests and goals begin and end with math. My favorite recreational activities were and are art and computers, and when one mixes the three together one gets patterns and designs. I am taking a Principles of Textile Patterns Honors class this year, and I am planning to take a Textile Arts Honors course next year.
- To learn how to apply business to operations such as this, I participate in the Junior Achievement (internship-type) program out of Lockheed Martin, and I get the opportunity to work with some employees of the fashion design company as well.

Career Goals Continued

- I hope to obtain a job, anywhere from an intern to project manager, at a fashion shoot or textile design company while attending college. I hope to one day work myself up to the top of the fashion design business, and to run my own line of clothing.

Table of Contents—Fashion Design

My School Courses

Radnor Senior High School

Honors Integrated Western Civilization (Gifted Program)

Advanced Geometry

Honors Biology

Orchestra Honors

Spanish 2

Office Applications

Resume Introduction

My resume seeks to provide evidence confirming that I will make a good business woman, and that I will excel in my interest area. You may notice that in my resume, it mentions a no absence award, as well as a varsity letter in two sports, along with the Coach's Award. The coach's award symbolizes that I am a hard worker, and swimming requires a lot of mental and physical strength, especially at such a young age. I do many extra-curricular clubs, as well as two major educational extra-curriculars as well.
