

The California Urban Water Conservation Council Presents:

Options For Weather-Based Irrigation Control For Residential and Small Commercial Sites

Thursday March 20th, 9:30 am – 3 pm

Hosted by Three Valleys Municipal Water District
1021 E. Miramar Avenue, Claremont, CA

Wednesday March 26th, 9:30 am – 3 pm

Co-hosted by East Bay Municipal Utility District
and Santa Clara Valley Water District at
Marina Community Center,
15301 Wicks Blvd., San Leandro, CA

Workshop Agenda

- **Welcome - Mary Ann Dickinson, CUWCC Executive Director**

- ***Opening Session***

Program Design for Weather-Based Irrigation Controllers

Experienced Conservation Coordinators will discuss the technical, financial, targeting and marketing issues for designing effective Weather-Based Controller programs. They will reveal the pitfalls to avoid and strategies for success.

- **Manufacturer Presentations**

Break into small groups and learn about the various weather-based irrigation controller products directly from the manufacturers.

Lunch

- **Question and Answer Session with the Manufacturers**

- ***Closing Session***

Weather-Based Irrigation Controller Research

Learn about weather-based irrigation controller research efforts.

Workshop Registration: \$25 Council Members, \$50 Non-Members

Space at both workshops is limited; reservations will be required.

To reserve a spot or for more information contact the California Urban Water Conservation Council at 916 552-5885.
