**PROFILE OF EDITOR**

 **Dr. K. Srinivasa Raju** is Associate Professor, Civil Engineering Group, Birla Institute of Technology and Science, Pilani, Rajasthan, India. His area of specialization is Water Resources Engineering. He obtained his B.E. (Civil) from Rajarajya University, Andhra Pradesh; M.Tech and Ph.D. in Water Resources Engineering from Indian Institute of Technology, Madras and Indian Institute of Technology, Kharagpur respectively. He was Post Doctoral Research fellow with GRESE, ENGREF and LAMSADE, Paris, France during February-July 2000. His research interests include Water Resources Management, Multicriterion Decision Making, Artificial Neural Networks and Fuzzy logic. He published more than 70 papers in International, National Journals and Conferences and reviewed many papers for International and National Journals of repute. He was recipient of Arjuna Citation of Excellence, IAS, Sir Arthur Cotton Memorial Medal from Institutions of Engineers (India); Latest top rated article rating by International Society of Robust Engineering Professionals, USA in the category of Operations Research/Statistics.

**ABOUT THE BOOK**

Predictions in Ungauged Basins for Sustainable Water Resources Planning and Management is a vast and interdisciplinary theme. Keeping this in view, twenty papers of various perspectives related to the above theme prepared by eminent experts are edited in the form of a book. An introduction to the topic is also provided for an overview. This book will be useful to researchers, students, practicing engineers and others working in water resources and allied fields.
