

ONLY MY SOUL

words & music steven stewart

1. My silence grows as the leaves outside are turning
 The seasons change. My heart remains out in the cold

2. But you love winter. You skate out on my river.
 Ignoring all my warnings that the ice won't hold.

+ I come to you and fall, it feels like drowning.
 I pull you in and under and we fight to breathe.
 You should be running far from me.

• It's only my soul. Don't try to save me.
 How could you know all that I fear?
 You move me, but I can't go. It's only my soul.

3. I'm just surviving. You say I could be living
 What do you see inside of me to give you that hope?

+ I'm broken, bruised- you touch me. I start healing.
 But I will disappoint you. Give me time.
 I've got my demons and I've made angels cry.

• Chorus.

+ Oh, my compass has failed me. There is no lighthouse on the shore.
 I turn away, but still I hear you tell me My loves worth fighting for.

• It's only my soul. Oh, can you save me?
 How do you know all that I feel?
 You move me, I want to go It's only my soul.
 You move me. I want to go. Its only my soul.
