

Anderson Christmas 2008

Since Steve has been writing resumes for 4.5 months, this letter's style may look a little stoic, but the content says that we've been blessed and we've had another good year!

Jan Our youngest is now 17. Jeremy was water baptized by immersion on the 27th. We know some worried that he had not been baptized yet. ☺
Wii got a Wii game system for Christmas. Jeremy bowled a 300 on it.

Feb Cheryl celebrated the 21st anniversary of her 29th birthday this year. She continues to experience the God given "miracle" of good health. PTL !

Mar Jeremy enjoyed a winning season on Light & Life's basketball team. He led the team in scoring and was named All-Catholic League and All-Conference. We made our annual pilgrimage to the Levay's condo in Florida and basked in the sun. Steve began reporting to the GM Tech Center in Warren as a Lear resident engineer.

Apr We traveled to Pittsburgh to meet our friends the English's' for a weekend. We stayed at a converted monastery and enjoyed the city, especially the "Mattress Factory".

May Sarah GRADUATES from MSU! She did it and we're proud of her BS in Natural Science. She moved back home with us in August after working summer AOP at MSU. Cheryl walked in the "Race for the Cure" breast cancer fundraiser again. It's a great event.

June Several graduation parties for our friends and Jer's who finished high school this year. Matt bought his first home in Kettering, OH and mom wants to help decorate it.

Steve thoroughly enjoyed a road test at GM Milford proving grounds where he drove through several obstacle courses and spun a Grand Prix 360° several times.

Continued on the back ☺

July

We made our summer treks to Oscoda and to the cottage and enjoyed sun and fun with family and friends. Steve takes Pudge, our pug, on boat rides.

Steve was laid off from Lear Corp. after 27 years and a day. He enjoyed his first August off in 30 years. While prospects are scary lately, we believe God opens doors.

Aug

Another vacation, to visit Janet & Mark in CT. I offered to stay all month, but ... Since work wasn't in the way, we got up to Mary & Bill's cottage too.

Sep

Jeremy starts his senior year at Baptist Park School since Light & Life closed. It has worked out great! Many of Jeremy's friends came to BP too. Jeremy played soccer for his 1st time and was named team defenseman of the year. He won a game in an OT shoot-out as the substitute goalie.

Oct

Steve & Cheryl took a week-end trip to Shipshewana after raking ~ 50 bags of leaves. We visited Elkhart, IN. We toured a motor trailer factory and museum there.

Nov

Matt was home for Thanksgiving and the celebration of his 26th birthday. He continues to prosper at Reynolds & Reynolds near Dayton, OH. He is working towards a black belt in Tae Kwon Do.

Dec

Hot off the presses: Sarah has the job after 4 interviews! She will be an admissions counselor at Lawrence Tech University in Southfield starting in Jan. Steve is still looking for a project/test equipment/validation testing job. ☺

Wise men still seek Him, and we hope you do too! Knowing the King of Kings is the best way to have a Merry Christmas. We wish you great blessings for Christmas & a Happy New Year!
