**Need a Reason to Sell SANYO?**

SANYO ranked "Highest in Overall Customer Satisfaction" according to J.D. Power and Associates.\*

SANYO has earned a sound reputation for uncompromising quality and engineering excellence.

SANYO is an industry renowned leader for phone design and technology.

**Seven Solid Selling Points**

- Built-In Digital Camera
- Instantly send pictures to any Vision™ phone or most email addresses.
- Attach a Voice Memo and send along with pictures to ten different recipients simultaneously.
- Take pictures and assign them as Screen Savers, Photo Caller IDs.
- Large 1.8 inch TFT (65k) Color Display.
- External 1 inch TFT (65k) Color Display which can be used as a viewfinder for taking a self-portrait with the clamshell closed, or show a photo of an incoming caller.
- Three eye catching colors to choose from. (see back cover)

**SCP-8100**

View interactive demos of the SCP-8100 and other popular PCS phones by SANYO online at [www.sanyowireless.com](http://www.sanyowireless.com).

**New Technology**

**Why Tri-Mode?... The addition of an 800mhz digital band provides even greater digital coverage.**

**Fully Supports Sprint PCS Vision™... Send photos, download games, ringers and screen savers. Using the SANYO SCP-8100 with PCS Vision™ from Sprint, you'll get clarity you can see and hear.**

**Built-in Digital Camera... Snap images and instantly assign as a screen saver, caller id, or wirelessly upload and share the fun with others.**

**Upload Images to Sprint Pictures Account... Store pictures online for instant sharing to anyone, anytime. Fun Interactive tools let users unleash their creativity by applying comic book-type bubbles, festive cartoons, antique photos, and much more.**

**Record a 10-sec Voice Memo... Send attached voice memos with pictures.**

**QuadScreen Thumbnail Picture Review... View images stored in the "Review/ Share Mode" and "Picture Wallet" four at a time!**

**User Controlled Color Tone... Edit tonal qualities of pictures with Sepia, Black & White, Negative.**

**WAP 2.0 Browser... For "More Content" image support includes PNG, JPEG, BMP, and WBMP formats.**

**Java (J2ME MIDlet)... This allows the user to run program applications that can be downloaded wirelessly. Experience remarkably enhanced gaming applications, map images, and detailed reports.**

**Personalization**

**Photo/Ringer Caller ID, Wallpaper, and Game Content... Download various content such as Ringers, Images and even Java based games.**

**Pictures Taken by the SCP-8100... Assign pictures as Screen Savers or Photo caller ID. Also Ringers can be used for unique Ringer caller ID or Start-up/Power-off melody.**

**Photo Caller ID... Look who is calling! Snap a picture and synchronize the image with internal phone book entries so that assigned image shows in the display for incoming calls.**

**Download Images... Use as standby wallpaper or caller ID through Sprint's download service, or snap a picture and immediately assign it as a screen saver, or download from your PC using multimedia software. (sold separately)**

**Ringer Caller ID... Hear whose calling! Synchronize ringers with internal phone book entries so that a certain ringer sounds for incoming calls.**

**Download Ringers... Use for unique ringer caller ID or start-up melody through Sprint's download service, or from your PC using special software. (sold separately)**

**Ringer Selection of Multiple Polyphonic Ringers... Name that tune! Take the guess work out of downloaded ringtones. Recognize your favorite melody immediately with quality rich polyphonic ringer capability. Choose from 7 "funky classical" melody ringers plus 8 standard ring tones, or download your own selections for the ultimate in personalization. There's even an animated ringer.**

**Picture Storage... Store up to 60 of your favorite photos using the SCP-8100's picture wallet. Images can be transferred to your PC via FutureDial's new SnapMedia software. (software sold separately)**

**Built-in Answering Machine... The SCP-8100 can act as a portable answering machine, allowing the user to listen in as the caller leaves a message; in addition the user is able to answer the call anytime while the caller leave their message.**

The SANYO SCP-8100 has been designed especially for use with the digital Sprint PCS Nationwide Network and all of the services they offer.
