

Explanation of Judges' Scoring Sheets for Simulation Events (Water Rescue and First Aid)

This is designed as a guideline for competitors and officials to assist with the understanding of the different elements found on the Simulation Events' scoring sheets. All of the expectations are related to official documents from the Lifesaving Society, including Alert, The Canadian Lifesaving Manual, appropriate award guides. Please review these documents along with this explanation sheet. Different items apply to different sheets. Please refer to the sheets for details (i.e. Speed of Recognition is only found on Water Rescue sheets)

Scores (0, 1, 2, 3)

0 – not attempted

1 – attempted, but 1 or more significant items performed below NLS/FA standard (i.e. would fail NLS/FA)

2 – all or the majority of items performed at NLS/FA standard (i.e. would pass NLS/FA)

3 – all items performed at or above NLS/FA standard with exceptional attention to detail in one or more areas

Speed of Recognition

- Recognition and response time

Rescue Scene Assessment

- Check for and management of hazards
- Determine mechanism of injury
- Incident and medical history
- Major complaint/other injuries
- Assess for spinal
- Appropriate entry (if required)

Primary Assessment

- Determine LOC
- Establish airway and evaluation
- Assessment of ABC's
- Evaluation of ABC's as early as possible
- Gross haemorrhage/body sweep
- Assessment of primary complaint

Treatment items

- Treatment items are specific for each victim. They have been taken directly from Must See's in conjunction with the manuals as listed above. Please refer to these manuals for additional information. Treatment includes monitoring and management of ABC's as well as treating for shock.

The telephone sheet and overall scoring sheet include detail with each item.

Secondary Assessment

- Complete head-to-toe, hands on body check in a logical manner
- Quality and appropriateness of body check (attention to detail)

Continuing Assessment

- Vitals monitored throughout
- Airway maintained throughout
- Injuries monitored/assessed throughout

Communication/Victim Care

- Treatment performed in a logical manner
- Treatment at earliest possible moment
- Prevention of further injury
- Appropriate or minimal movement of victim (including removal)
- Confidence/calmness in dealing with victim
- Effective response
- Effective use of equipment
- Use of protective equipment
- Communication performed with confidence, calmness and reassurance, including introducing themselves
- Necessary information was obtained from victim and witnesses
- Interaction with other guards was appropriate and effective
- Interaction with witnesses was appropriate and effective
