LET'S GO GREEN

If you've got aphids, ladybugs are considered one of the best & most green solutions out there. You can even buy them in bulk to release in your garden! And of course, ladybugs are very earth-friendly. If you don't want to buy ladybugs for your garden, try attracting them by planting "fennel, dill, cilantro, caraway, tansy, wild carrot & yarrow & scented geraniums."
