When doing things for yourself, be guided by your head, when doing things for others, be guided by your heart.

LET'S GO GREEN**Insulate Your House**

Good insulation is one of the best ways to reduce your heating bills & cut your CO₂ emissions. Heating & cooling make up 50 to 70 percent of energy use in the average home. A well-insulated house can prevent hundreds of pounds of CO₂ emissions per year & can cut your heating & cooling bills by up to 20 percent.

P.S. Save the earth. It's the only planet with chocolate!!

HAPPY EASTER!!
