if keithy were stranded on a deserted island...

**3 movies:** 'as an intelligent individual, I must point out the unlikelihood of having a television and a dvd player to watch said movies on a deserted island, let alone a method of powering these devices... however, that being said, I would bring the Lord of the Rings extended edition boxed set (when it comes out), the Band of Brothers boxed set, and... Transformers the movie.'

**3 cds:** Dookie, but Greenday, All Killer No Filler by Sum 41, and The Young and the Hopeless by Good Charlotte

**3 people, dead or alive, you do not know::** Albert Einstein, Alexander Pope and Aristotle
