

SCH LS AGAINST WAR

Calling all Parents:

Across the world tens of thousands of school students are organising against any war on Iraq. In Northern Ireland we are doing the same through the Schools Against the War group. We feel that since we are the next generation we will have to pick up the pieces of any adventures that George Bush makes.

The Stop the War Coalition supports our group. Our main aim is simple: to say that this war is not in our name and also to raise awareness of the horrors that war brings to people like us around the globe.

We have organised petitions calling on the American consulate in Belfast to justify a war, but they have refused. Tony Blair is not listening to our voice. When the bombing starts we are organising walkouts alongside some of our teachers and other students in schools, colleges and universities.

Please sign this consent form in support of your child to walkout against the war and to organise properly to stop it. These consent forms will be handed in on the day when the war starts and when thousands of students across the globe take to the streets against this unjust war for oil.

I allow my child to walkout in protest against the war on Iraq
