

II INTERNATIONAL SYMPOSIUM ON BIOCHEMISTRY AND MOLECULAR BIOLOGY

18-22 October 2004,

Havana International Conference Center, Cuba.

The Cuban Section of Biochemistry and Molecular Biology (SCBBM) is pleased to announce its II International Symposium on Biochemistry and Molecular Biology within the 5th International Congress on Chemistry and Chemical Engineering, to be held October 18th - 22nd, 2004, at the Havana International Conference Center.

Selected Topics

Structure and Function of Proteins and Proteomics.

Enzyme Technology.

Molecular and Cell Immunology.

Genetics, Nutrition and Molecular Evolution.

Molecular Medicine.

Molecular Biology of Plants

Bioinformatics.

Education on Molecular Biosciences.

Modalities

Master and plenary lectures, oral and poster presentations

Important dates to remember (2004)

May 15: Abstracts presentation and on-line registration.

July 15: Notification to authors on the acceptance of their papers and the form of presentation.

October 18: Registration. Opening of the Exhibition-Fair. Welcoming Cocktail. Invitation requested)

October 19: Opening Ceremony of the Congress.

October 21: Cultural Gala.

October 22: Closing Ceremony of the Congress.
