

PNEUMATIC K-STYLE U-SEALS

FOR PNEUMATIC APPLICATIONS ONLY

K-Style u-seals are designed to act as a positive sealing, low friction replacement for conventional rubber u-seals. Molded from polyurethane, K-Style u-seals provide long life and high resistance against extrusion. Low friction allows these seals to run smoothly in lubricated or non-lubricated cylinders. Available as UKR for rod sealing or UKP for piston applications, the flexible dynamic lip provides very low breakaway friction and steady motion.

PART NUMBERS

UKR 09 - 0.50

Type of Seal | Cross Section | Inside Diameter

PART NUMBERS

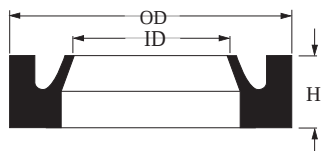

UKP 09 - 0.37
