

Unit 5- Weather/Meteorology

Vocabulary

1. air Pressure
2. air mass
3. barometer
4. calorie
5. clouds
6. cold front
7. condensation
8. conduction
9. continental
10. convection
11. cyclones
12. dewpoint temperature
13. dynamic equilibrium
14. evaporation
15. freezing
16. front
17. hail
18. drizzle
19. hurricane
20. INSOLATION
21. isobar
22. jet stream
23. maritime
24. melting
25. meteorology
26. occluded front
27. polar
28. precipitation
29. pressure gradient
30. psychrometer
31. rain
32. relative humidity
33. saturated
34. sleet
35. smog
36. snow
37. solar energy
38. specific heat
39. station model
40. stationary front
41. temperature
42. thermometer
43. tornado
44. transpiration
45. tropical
46. warm front
47. weather
48. wind
49. Absolute Zero
50. adiabatic
51. aerosol
52. anticyclone
53. condensation nuclei
54. cumulus clouds
55. cirrus clouds
56. stratus clouds
57. cumulonimbus clouds
58. evapotranspiration
59. sea breeze
60. land breeze
61. phase change
62. source region
63. squall line
63. storm surge
64. synoptic weather map
65. forecast
66. overcast
67. convergence
68. divergence
69. eye of hurricane
70. Cloud seeding
