

الفول والحمّة

<https://youtu.be/TI QfNsFaKyA>

عن موضوع الفول والحمّة صرح مصدر قال مسؤل
ان الطب اتقدم جدا والدكتور محسن بيقول
ان الشعب المصري خصوصا من مصلحته يقرش فول
حيث الفول المصري عموما يجعل من بني ادم غول
تأكل فخده في ربع زكييه والدكتور محسن مسؤل
يديك طاقة وقوة عجيبة تسمن جدا تبقى مهول
ثم اضاف الدكتور محسن ان اللحمه دي سم أكيد
بتزود أوجاع المعدة وتعود على طولة الايد
وتتيم بني ادم وتفرقع منه المواعيد
واللي بياكلوا اللحمه عموما حيخشوا جهنم تأييد
يادكتور محسن يامزقلط يامصدر ياغير مسؤل
حيث ان انتو عقول العالم والعالم محتاج لعقول
مارأى جنابك وجنابهم فيه واحد مجنون بيقول

احنا سييوننا نموت باللحمة وانتو تعيشوا وتاكلوا الفول
مارأيك ياكابتن محسن مش بالذمة كلام معقول

TRANSLATION:

ON THE QUESTION OF BEANS AND MEAT

Sung by Sheikh Imam
Lyrics by Ahmed Fuad Negm

Regarding the question of beans and meat
an alleged official source has decreed
that medicine has advanced greatly,
and Dr Mohsin says that the Egyptian people
are better off eating beans...

and that eating Egyptian beans
makes you as strong as an ox...

and that such complete protein
cannot be found in any other food...

Eat a portion, and Dr Mohsin is responsible

It gives you great energy and strength and
makes you big and strong.

It's vegetarian meat. Eat a pot
and you'll live long and healthy.

And Dr Mohsin added that meat
is assuredly poison

It causes stomach pains and
turns you into a thief.

And it causes a person to sleep
more and miss appointments.

In general, those who eat meat
are surely going to hell.

Hey, chunky Dr Mohsin, you
source that is not credible

You need to tell the world, and
the world needs to know

What does your honour think?
There's a crazy man who is suggesting the following:

"Leave us to die from eating meat,
and *you* can all live from eating beans."

What do you think, Captain Mohsin?
Isn't that a sensible idea?!
