Microsoft isn't evil, they just make really crappy operating systems

## LOVE

Do what makes U happy. life is not based on the money U earn or d success U' ve achieved. It's all about being happy with what Ur, who loves U and whom U love!

Love the heart that hurts u and never hurt the heart that loves U

What is live ? Live is love. Whats love ? Love is kissing. Whats kissing ? Come here and I show you.

Love me or leave me. Hey, where is everybody going ?

You got the style. You got the intelligence and you sure got the body!

The moment I first saw you, you warmed my heart, the second time you made little flames and now you make my heart burn like hell !

Are you free for the rest of your life?

Do you believe in love at first sight, or do I have to walk by again?

It must have been a rainy day when you were born. Heaven was crying coz it lost its most beautiful angel!

I must have been born under a lucky star, to find a friend as nice as you are, and I will follow the rainbow until the end, if you promise forever to be my friend!

In my dreams you're mine, in my life you're a dream.

You're eyes are soft en tender,as sweet as they can be. There's one thing you must remember, you are the one for me!!!

There are so many people in the world but in my world there's only one and that's you!!!

I want to share everything with you, your sadness, your happy moments, every single second of the day.

Do your feet never hurt ???? ... You are wondering around my thoughts all day long....

You can fall from a mountain, you can fall from a tree, but the best way to fall, is to fall in love with me.

Don't listen to your mind. Listen always to your heart!

Can you see me? no? Turn around, can you see me now? no? Turn again, can you see me now? I can see you because you have a special place in my heart!

Sometimes words are hard to find, to form that perfect line to let you know you're always on my mind!

Even when it is rainy the sun is shining in your smile.

I will give you one kiss to go to sleep. I give you two kisses to dream. I give you an endless row of kisses to, when you wake up in the morning, think of me.

During maths I was thinking of you but I cannot calculate how much I love you!!

I wanted to put something incredibly beautiful, sweet, nice, sensitive, erotic and funny on you screen, but unfortunately I do not fit on it.

The reduction of the universe to a single being,  
the expansion of a single being even to God, this is love."

When I let go of what I am, I become what I might be

Man has made many machines, complex and cunning, but which of them indeed rivals the workings of his heart?

Love is the force that ignites the spirit and binds teams together.

What counts in making a happy relationship is not so much how compatible you are,  
but how you deal with incompatibility.

In order to create there must be a dynamic force, and what force is more potent than love?

One of the nice things about problems is that a good many of them do not exist except in our imaginations.

### **Inspiration**

In times of difficulties never say God I have a big problem. Instead say Hey problem I have a big God and everything will be alright.

Your talent is God's gift to you.  
What you do with it is your gift back to God.

All men who have achieved great things  
have been great dreamers.

Do it trembling if you must,  
but do it !

The past cannot be changed,  
the future is still in your power.

A champion is someone who gets up, even when they can't.

You are never given a wish  
without being given the power to make it come true.

Love, like a river, will cut a new path  
whenever it meets an obstacle.

Somewhere there's someone who dreams of your smile,  
and finds in your presence that life is worth while.  
So when you are lonely, remember it's true  
Somebody somewhere is thinking of you.

Don't let today's disappointments

The human mind is not capable of grasping the universe. We are like little children entering the library. The walls are covered to ceiling with books in different tongue. The child knows that something must have written these books. It does not understand the language in which they are written. It does not know who are how, but the child notes a definite plan in the arrangement of the books a mysterious order which it does not comprehend, but only dimly suspects

## **MISC**

Are there certain friends you turn to when you have a problem or need to be listened to? Think about this:

- Are they compassionate, understanding and nurturing?
- Are they totally present, giving you their undivided attention?
- Do they try to solve your problems for you or do they help you to get clarity so that you can solve your own problems?
- Do they let you talk until you're done?

Chances are the people you turn to for support and understanding are good listeners. You can develop these qualities as well and take them even deeper into "essence understanding" through mastering deep heart listening.

A friend can tell you things you don't want to tell yourself.

True friendship is seen through the heart not through the eyes.

If a man does not make new acquaintances as he advances through life, he will soon find himself left alone; one should keep his friendships

in constant repair.

Friendships are fragile things, and require as much handling as any other fragile and precious thing.

portunity

Opportunity is often difficult to recognize; we usually expect it to beckon us with beepers and billboards.

The block of granite which is an obstacle in the pathway of the weak becomes a stepping-stone in the pathway of the strong.

Opportunity is missed by most people because it is dressed in overalls and looks like work.

beauty

There is nothing ugly; I never saw an ugly thing in my life: for let the form of an object be what it may, — light, shade, and perspective will always make it beautiful.

When I'm working on a problem, I never think about beauty. I think only how to solve the problem. But when I have finished, if the solution is not beautiful, I know it is wrong.

Beauty is an experience, nothing else. It is not a fixed pattern or an arrangement of features. It is something felt, a glow or a communicated sense of fineness. What ails us is that our sense of beauty is so bruised and blunted, we miss all the best.

Beauty is one of the rare things that do not lead to doubt of God.

relationship

People are lonely because they build walls instead of bridges

True friends are those who, When you make a fool of yourself,  
Don't believe that this condition is permanent.

I've learned in my lifetime so far that you can't help who you  
fall for and no matter how hard you try and how much it hurts you  
everyday that you just wanna be with them or just talk to them  
you never stop trying to make them happy by the little things you  
say or do because thats what makes your life worth going on for.

Words are just words and without heart they have no meaning.

The most basic of all human needs is the need to understand and be understood. The best way to understand people is to listen to them.

They may forget what you said, but they will never forget how you made them feel

science

In science one tries to tell people, in such a way as to be understood by everyone, something that no one ever knew before. But in poetry, it's the exact opposite.

The atom, being for all practical purposes the stable unit of the physical plane, is a constantly changing vortex of reactions.

Ariel and Will Durant

It is good a philosopher should remind himself, now and then, that he is a particle pontificating on infinity.

Isaac Asimov

The most exciting phrase to hear in science, the one that heralds new discoveries, is not 'Eureka!' (I've found it!), but 'That's funny...'

'Doc' Edgerton

That's the nature of research—you don't know what in hell you're doing.

Patrick Blackett

May every young scientist remember... and not fail to keep his eyes open for the possibility that an irritating failure of his apparatus to give consistent results may once or twice in a lifetime conceal an important discovery.

time

Doc Childre and Howard Martin, The HeartMath Solution

You're writing the story of your life one moment at a time.

Sara Paddison, The Hidden Power of the Heart

Each moment is a doorway to time travel. Being in this very moment and no other, time as we know it stops. You can Freeze-Frame and stop. Then you can make another choice. You can stay in the same holographic pattern or you can choose a different one.

Doc Childre and Sara Paddison, HeartMath Discovery Program

Are there times when you were having fun or sincerely helping someone or deeply appreciating an experience? Recall those times. How do they make you feel mentally, emotionally and physically? Do they add quality to your day?

Sara Paddison, The Hidden Power of the Heart

Realize that now, in this moment of time, you are creating. You are creating your next moment. That is what's real.

Doc Childre and Bruce Cryer, From Chaos to Coherence

The pressures on people today demand learning how to time shift. When faced with obviously conflicting priorities that "cannot possibly be accomplished in the time frame," what alternative is there other than mind-numbing stress? The first thing is to assume there is a solution that can be achieved once you get internally coherent enough to perceive it. Internal coherence is the priority and can lead to surprising time-saving convenience.

Doc Childre, HeartMath Discovery Program

Time pressure starts to subside when we shift to the heart to find quality of mood and ease. It's our unmanaged emotions that turn time into an opponent and make life a rat race. Managing time with the heart is the ultimate time management tool.

Doc Childre, Freeze-Frame

When you make an efficient choice in moments of indecision, you establish more effectiveness within a given time span, saving energy and stress. That's a time shift.

Doc Childre - Women Lead With Their Hearts (a White Paper)

The new paradigm is a joint venture between head and heart intelligence, which generates a continuity of intuitive creative intelligence. Intuition cuts time and effort. As you gain intuitive intelligence, you become more energy and time effective.

Bruce Cockburn, "A Dream Like Mine"

When you know even for a moment  
That it's your time  
Then you can walk with the power  
Of a thousand generations

David Norris

How you spend your time is more important than how you spend your money. Money mistakes can be corrected, but time is gone forever. .

Horace Mann

Lost, yesterday, somewhere between sunrise and sunset, two golden hours, each set with sixty diamond minutes. No reward is offered, for they are gone forever.

Jean Paul

The more sand that has escaped from the hourglass of our life, the clearer we should see through it.

J. Franklin

Time is the glue that

Jim Bishop

It is difficult to live in the present, ridiculous to live in the future, and impossible to live in the past. Nothing is as far away as one minute ago.

From "Cheers

Time goes by so fast, people go in and out of your life. You must never miss the opportunity to tell these people how much they mean to you.

Georgia O'Keeffe

Nobody sees a flower really; it is so small. We haven't time, and to see takes time - like to have a friend takes time.

M. Scott Peck
