Experience

Computers and Electronics

Knowledge of circuit boards, processors, chips, electronic equipment, and computer hardware and software, including applications and programming.

Communications and Media

Knowledge of media production, communication, and dissemination techniques and methods. This includes alternative ways to inform and entertain via written, oral, and visual media.

Design

Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models.

Customer and Personal Service

Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.

Skills

Originality

The ability to come up with unusual or clever ideas about a given topic or situation, or to develop creative ways to solve a problem.

Near Vision

The ability to see details at close range (within a few feet of the observer).

Fluency of Ideas

The ability to come up with a number of ideas about a topic (the number of ideas is important, not their quality, correctness, or creativity).

Visualization

The ability to imagine how something will look after it is moved around or when its parts are moved or rearranged.

Oral Comprehension

The ability to listen to and understand information and ideas presented through spoken words and sentences.

Community Service

Prepare food and serve meals.
Pick up trash.
