Aiju fonts are Inuktitut Unicode syllabics fonts that conform to the Unified Canadian Aboriginal Syllabics (UCAS) encoding of the Unicode Standard. They can be used interchangeably with NunacomU, Pigiarniq and any other Unicode compliant Inuit syllabics font that conform to the UCAS encoding. Aiju fonts work best with my Aijutitut and Sannatitut Keyboards for MacOS X and Windows 2000/XP but they do work with Nunacom Indonesian Keyboard.

The following Inuktitut syllabic characters are incorporated into Aiju fonts.
