STRANGE TENANTS

Hopefully we can get the recording done by the middle of the year. Then do some shows with the new material towards the latter part of the year. I must say, I can't wait to get in the studio again with the boys and start laying some tracks down. What it gives fans, is an opportunity to hear something

fresh for a change! People must be sick of playing our stuff from the 80s by now. I suppose it also gives us an opportunity to reach out to a whole new audience and a new generation of people with music we hope they'll love and thereby keep us going for another 25 bloody years! Not much more I can say - except stay tuned."

The verdict: Well shirt
and socks covered in
sweat says it all.
