* Meet 3 - No Handicap was shot @ this Meet. Per the ECTC, scoring will be calculated as follows:

In terms of Conference averages, no handicap targets from week 3 will be included in any shooter's average, including those handicap targets shot by members of the South Division. Averages from week 3 will be calculated from shooters' 16-yard score only. This is the fairest approach since 2 out of the 3 divisions were unable to post handicap scores. For example, if a shooter shot a 45 in 16's, this will equate to a 90.00 average for week 3. Just like always, if a shooter shoots all 6 shoots and week 3 is their low score it will be dropped from their season average.

Highlighted scores were dropped for purposes of average calculations
