Attached are our final proposals concerning an updating of the Mission Statement and the Grad at Grad. Upon approval by the members of this committee, this will be submitted the North Central Committee Steering Committee.

The Mission Statement is very different than the one we have had for the past six or seven years. This version originated in a subcommittee guided by Rich Moran with Fr. Tom Cummings, S.J. and Thom Digman. It has gone to the faculty, to a student group, and to the School Educational Policies Committee and reflects their input and suggestions.

The Grad at Grad comes from a subcommittee headed by Brian Christopher, S.J. They have decided to make minimal changes. The faculty and students have been invited to add their comments and advice but little has come forth. Rosemary Queatham, Kathryn Whitaker, George Mills, Eric Clark were on this subcommittee.

(N.B. The real discussion of the Mission statement came about after the proposed changes went the groups and all had a chance to voice their views on the new proposal. This was not done with the Grad at Grad. Should we do this in the fall?)

Thanks for all your time and efforts. A special thank you to Rich Moran and Brian Christopher for their leadership and efforts.

H. Eric Clark
