

Middle School Traffic Safety Concern

PLEASE, we need your help!

On many occasions over the last few months, during morning arrival and afternoon departure, parents and/or designated drivers have entered the Middle School driveway; either to drop-off or pick-up students. We have witnessed drivers performing three-point turns and exiting back onto Central Street. This driving maneuver endangers the safety of our students!

The front driveway is a one-way road. All vehicles entering the front driveway must travel along the side driveway. Turn left at the end of the drive and exit along the access road (where the Jersey barriers are located) back onto Central Street.

Please, for the safety of the children, follow the traffic plan (please refer to page 33 of the Student Handbook).
