ADDITIONAL ACTIVITIES FOR UNIT 4 – TEACHER'S NOTES

Activity 4.1

Language Focus: Question forms and simple past.

Skills Focus: Reading and Speaking

Time (approx): 20 minutes, plus homework

Preparation: Photocopy and cut up **Worksheet 4** to make one pair of texts for each pair of students.

Procedure

- On the board write:
Charlie Chaplin
- Elicit what your students know about him.
- Divide the class into As and Bs.
- Give the A students a copy of their worksheet and the B students a copy of their worksheet.
- Give the students time to write their six questions. Encourage them to help each other (as long as they work with a student with the same letter i.e A with A).
- After a few minutes explain that you will put them in pairs and that they should ask their partner the questions – their partner will have the answers.
- Pair the students – one A student with one B student.
- Monitor and help where necessary.
- Check as a class.
- For homework you could ask your students to write a similar paragraph about what they admire.

Note: Although the Student's Book unit does not ask students to actively form questions they have been exposed to all the question forms used on this worksheet. It is important to give students time, working in their groups, to formulate the questions properly.
